

(last update: 13-06-2016) Read Me – StataFiles

This directory includes all Stata-format and Matlab-format codes and files that we use to produce homogenous g-percentile wealth series (out of inheritance tax tabulations) in GGP Wealth 2016 Appendix C.

- **File gperc_wealth_1800_1970.dta:** main Stata file including detailed g-percentile series 1800-1970
- **File gperc_wealth_1800_1970_Codebook.pdf:** pdf file including the codebook (list of variables) of Stata file gperc_wealth_1800_1970
- **File do_gperc_wealth.do:** Stata code generating main Stata file gperc_wealth_1800_1970.dta (as well as tables TableC10.dta etc.) using output from SimulationMatLab and
- **Files TableC10.dta, etc. :** summary statistics tables extracted from gperc_wealth_1800_1970.dta and reproduced in GGP2016WealthAppendixC.xlsx
- **Directory SimulationMatLab :** directory including all MatLab-format codes that we use to transform inheritance tax tabulations into g-percentile wealth series (see ReadMe file in directory)
