Abstract

This document supplements our working paper “Historical Political Cleavages and Post-Crisis Transformations in Italy, Spain, Portugal and Ireland, 1953-2020”. It contains all appendix tables and figures.

* Luis Bauluz: University of Bonn; Amory Gethin, Marc Morgan: Paris School of Economics – World Inequality Lab; Clara Martínez-Toledano: Imperial College London. We thank Kevin Cunningham, Federico Curci, Carmen Durrer, Javier Padilla, Thomas Piketty, Aidan Regan, and Paolo Santini for their useful comments.

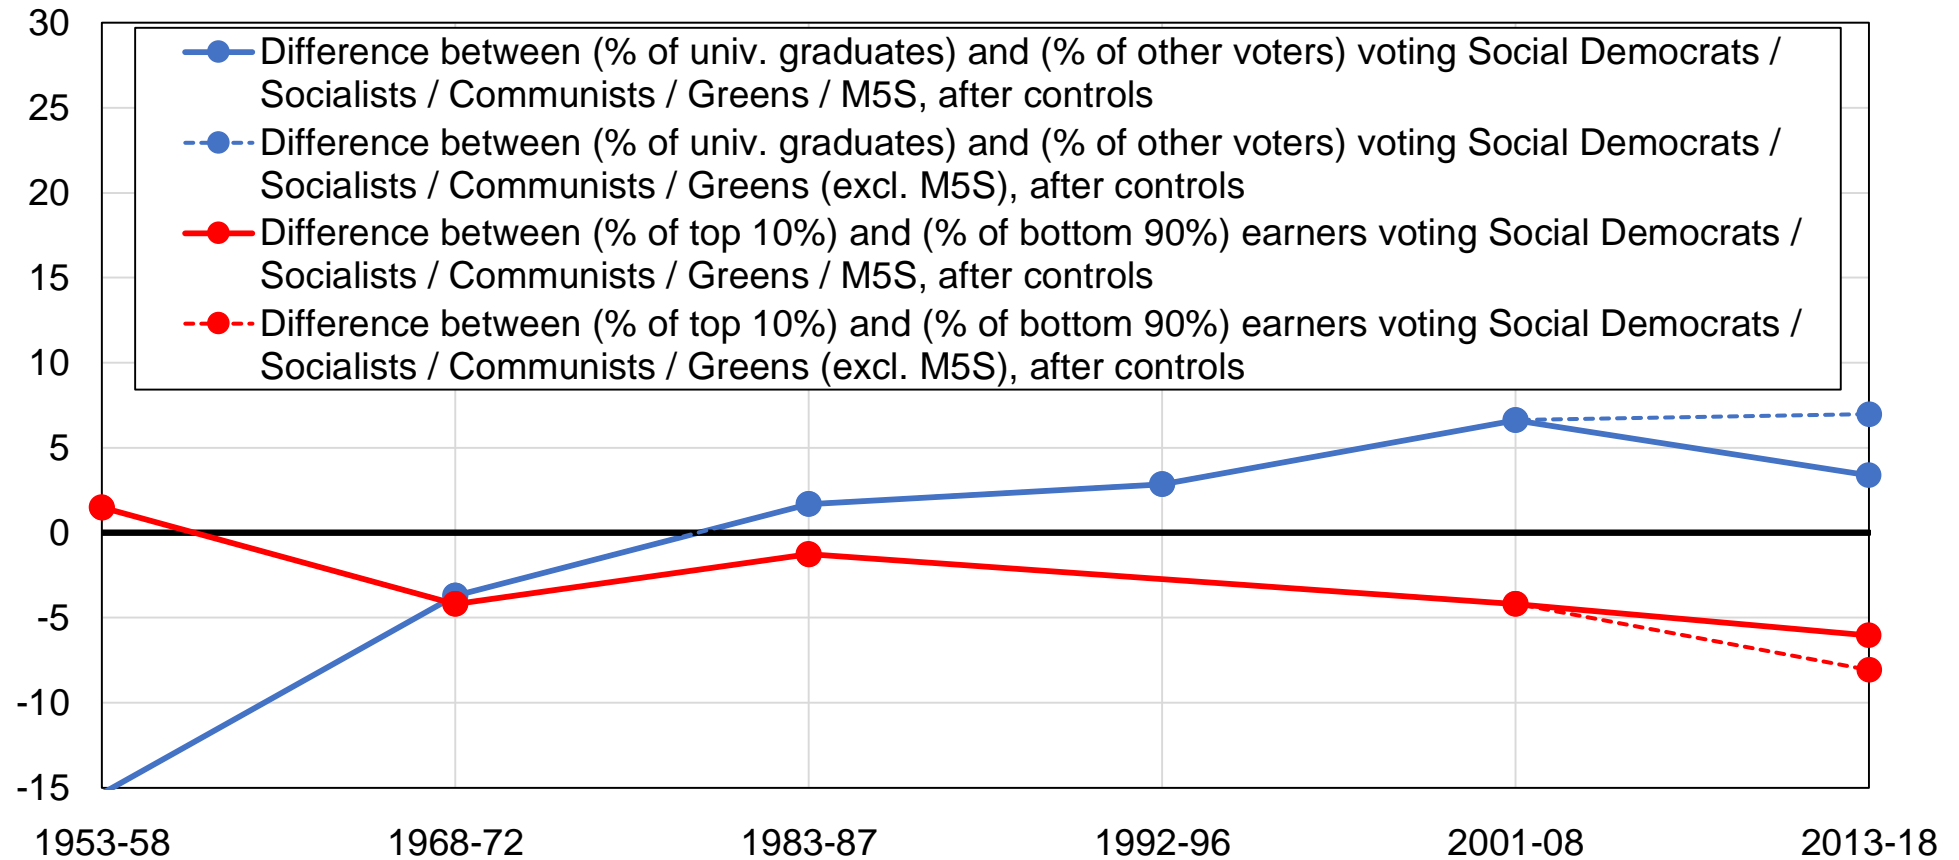

Figure A1 - Election results in Italy, 1948-2018

Source: authors' computations using official election results.

Note: the figure shows the share of votes received by selected groups of Italian political parties in general elections between 1948 and 2018.

Figure A2 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among university graduates and top income earners in Italy, after controls

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of university graduates and top-income voters and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, after controlling for age, gender, religious affiliation, religiosity, employment and marital status, union membership, perceived social class, urban-rural location and region.

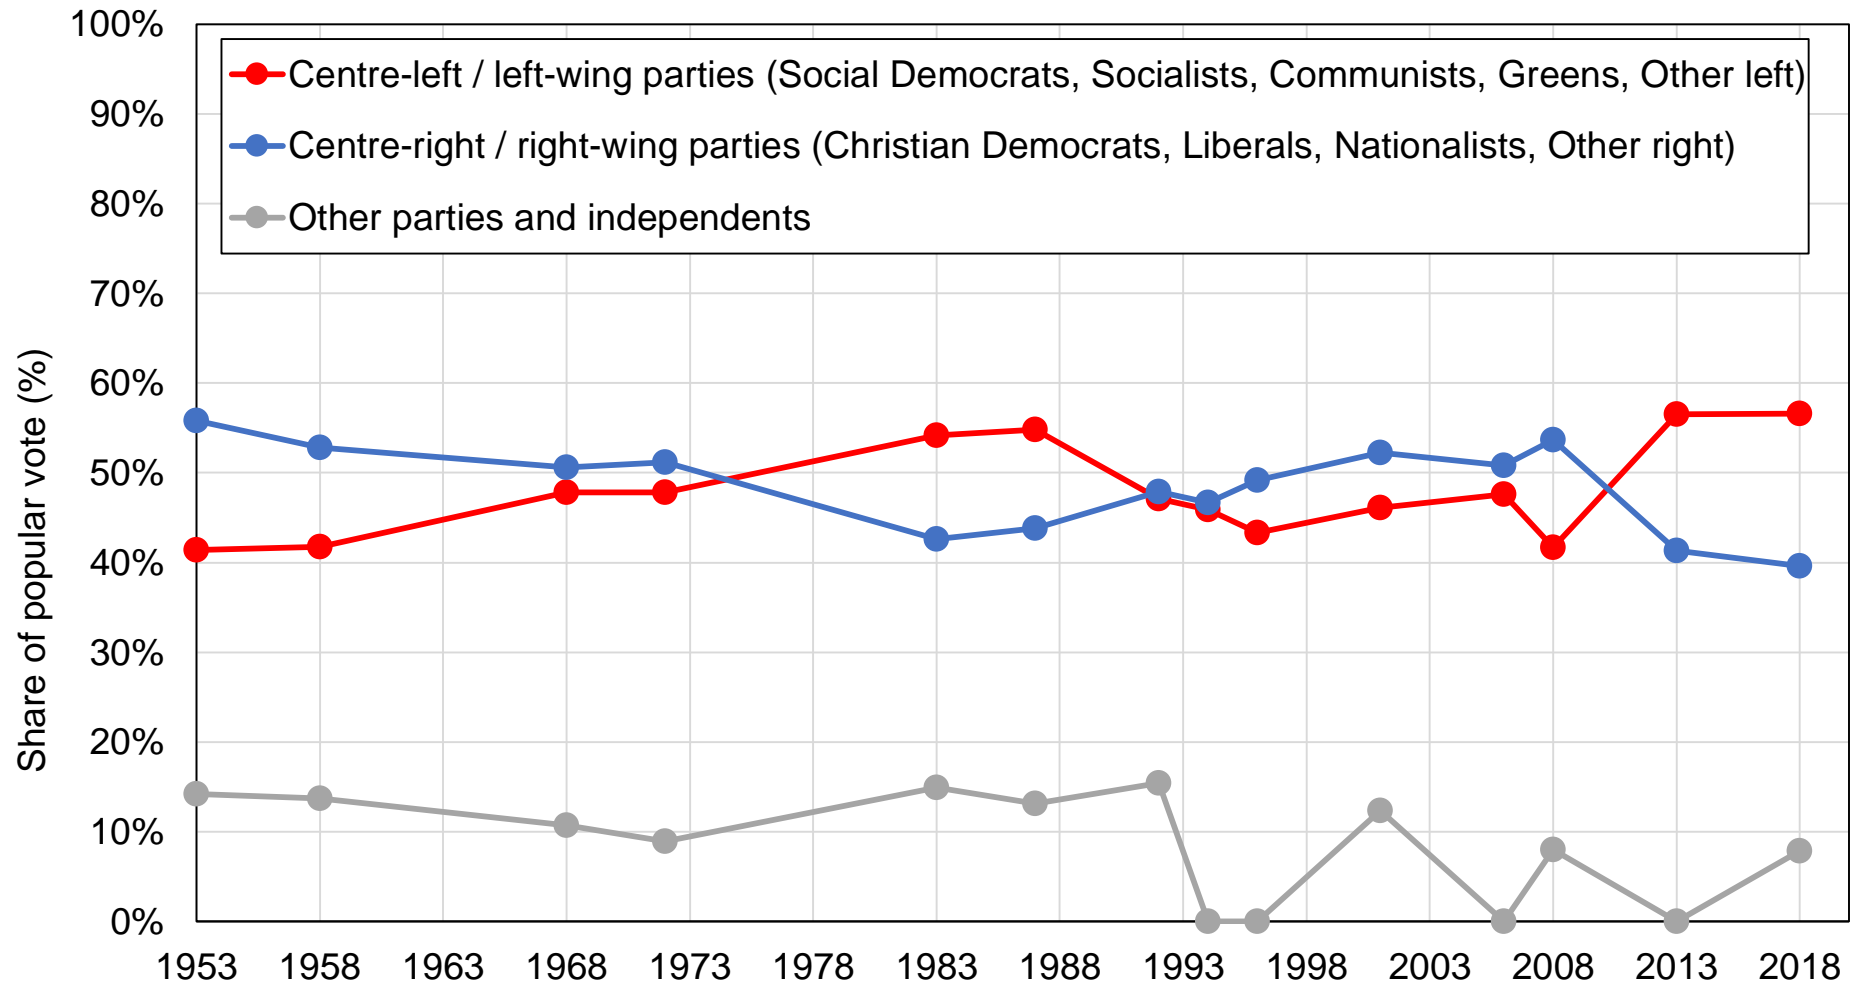

Table A1 - The structure of political cleavages in Italy, 2018

	Share of votes received (%)				
	Socialists / Soc. Democrats	Lega	Conservatives / Liberals	Fratelli d'Italia	M5S
Education					
Primary	16%	29%	19%	1%	33%
Secondary	24%	22%	7%	5%	38%
Tertiary	34%	14%	10%	7%	30%
Income					
Bottom 50%	33%	18%	9%	5%	31%
Middle 40%	24%	20%	8%	6%	38%
Top 10%	12%	28%	12%	4%	42%
Age					
20-40	28%	16%	8%	5%	39%
40-60	25%	21%	9%	5%	35%
60+	32%	23%	10%	6%	26%
Religion					
Never	33%	16%	7%	3%	36%
Less than monthly	23%	25%	8%	8%	34%
Monthly or more	20%	17%	7%	10%	45%
Region					
North	30%	29%	9%	4%	24%
Center	28%	18%	9%	7%	33%
South	23%	8%	8%	6%	51%
Islands	22%	8%	11%	6%	51%

Source: authors' computations using Italian political attitudes surveys.

Notes: the table shows the average share of votes received by the Socialists/Social Democrats/Green, New Communists, Lega, Christian Democrats/Liberals, Fratelli d'Italia and the 5 Stars Movement over the 2018 period.

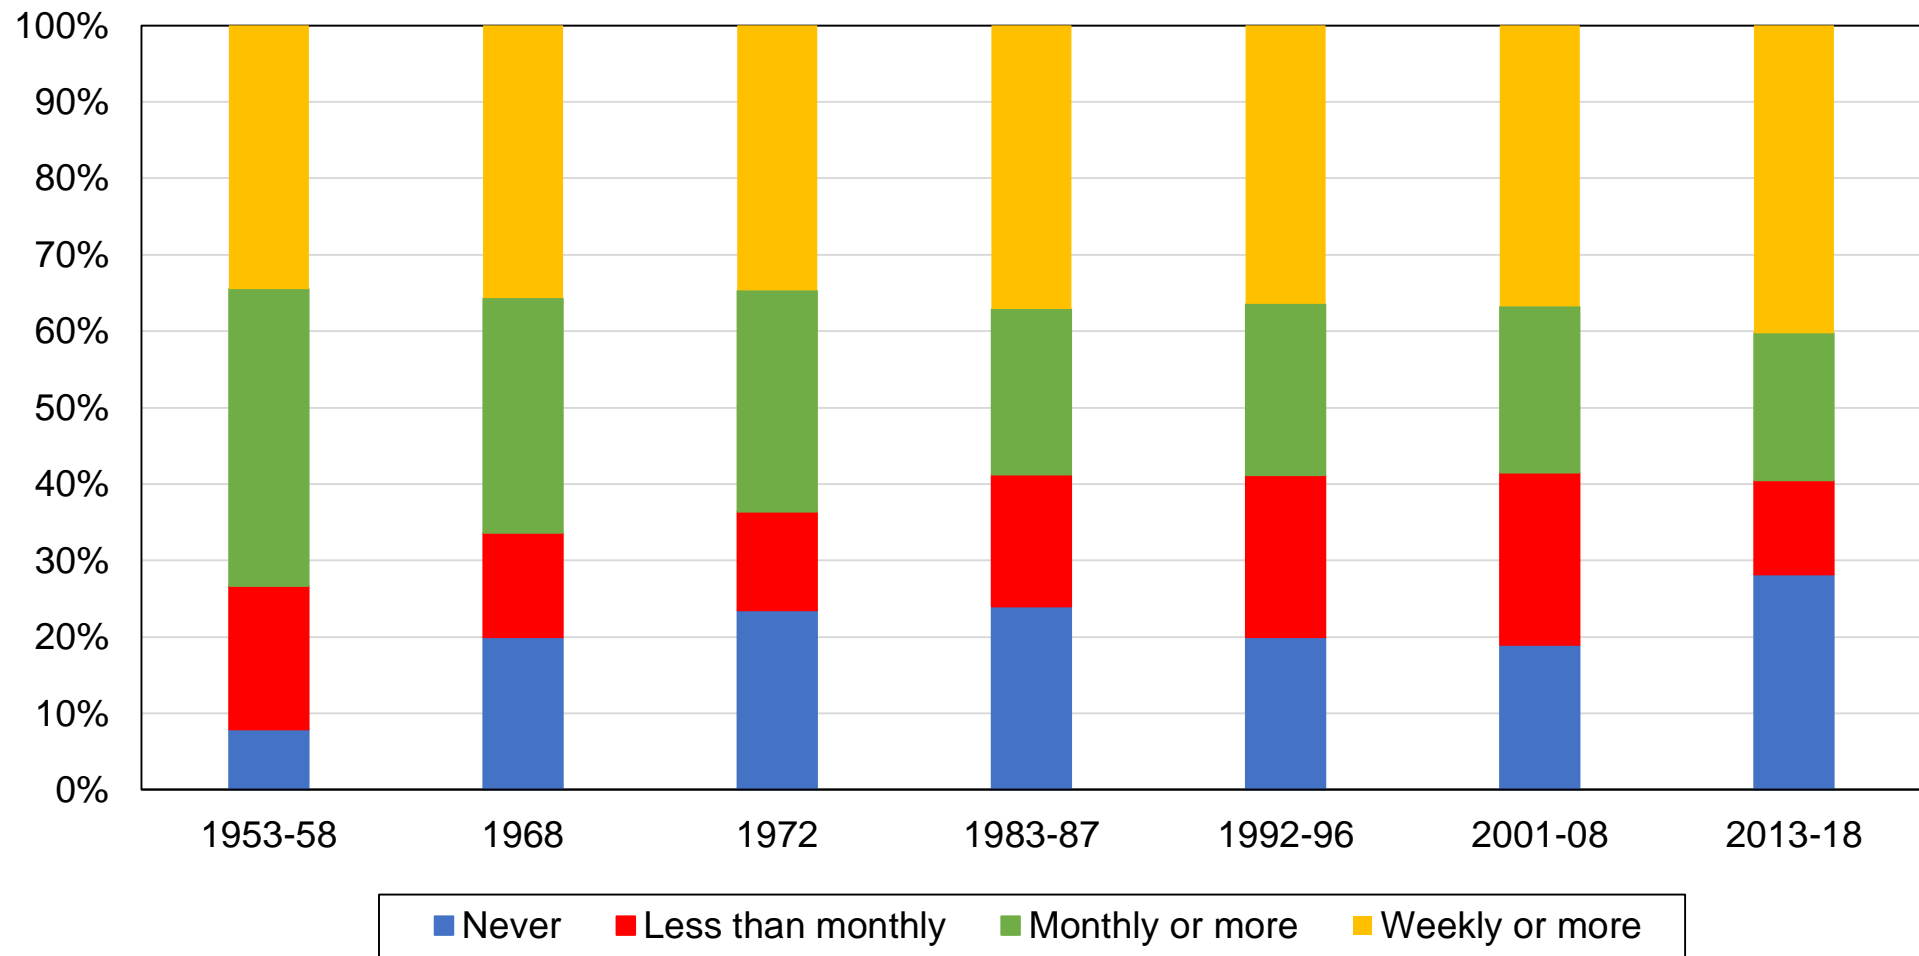

Figure AA1 - Election results by groups in Italy, 1968-2018

Source: authors' computations using official election results.

Note: the figure shows the share of votes received by selected groups of Italian political parties in presidential elections between 1968 and 2018.

Figure AA2 - Composition of the electorate by church attendance

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the distribution of church attendance of the Italian adult population and its evolution over time since the 1950s.

Figure AB1 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by education level in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by education level.

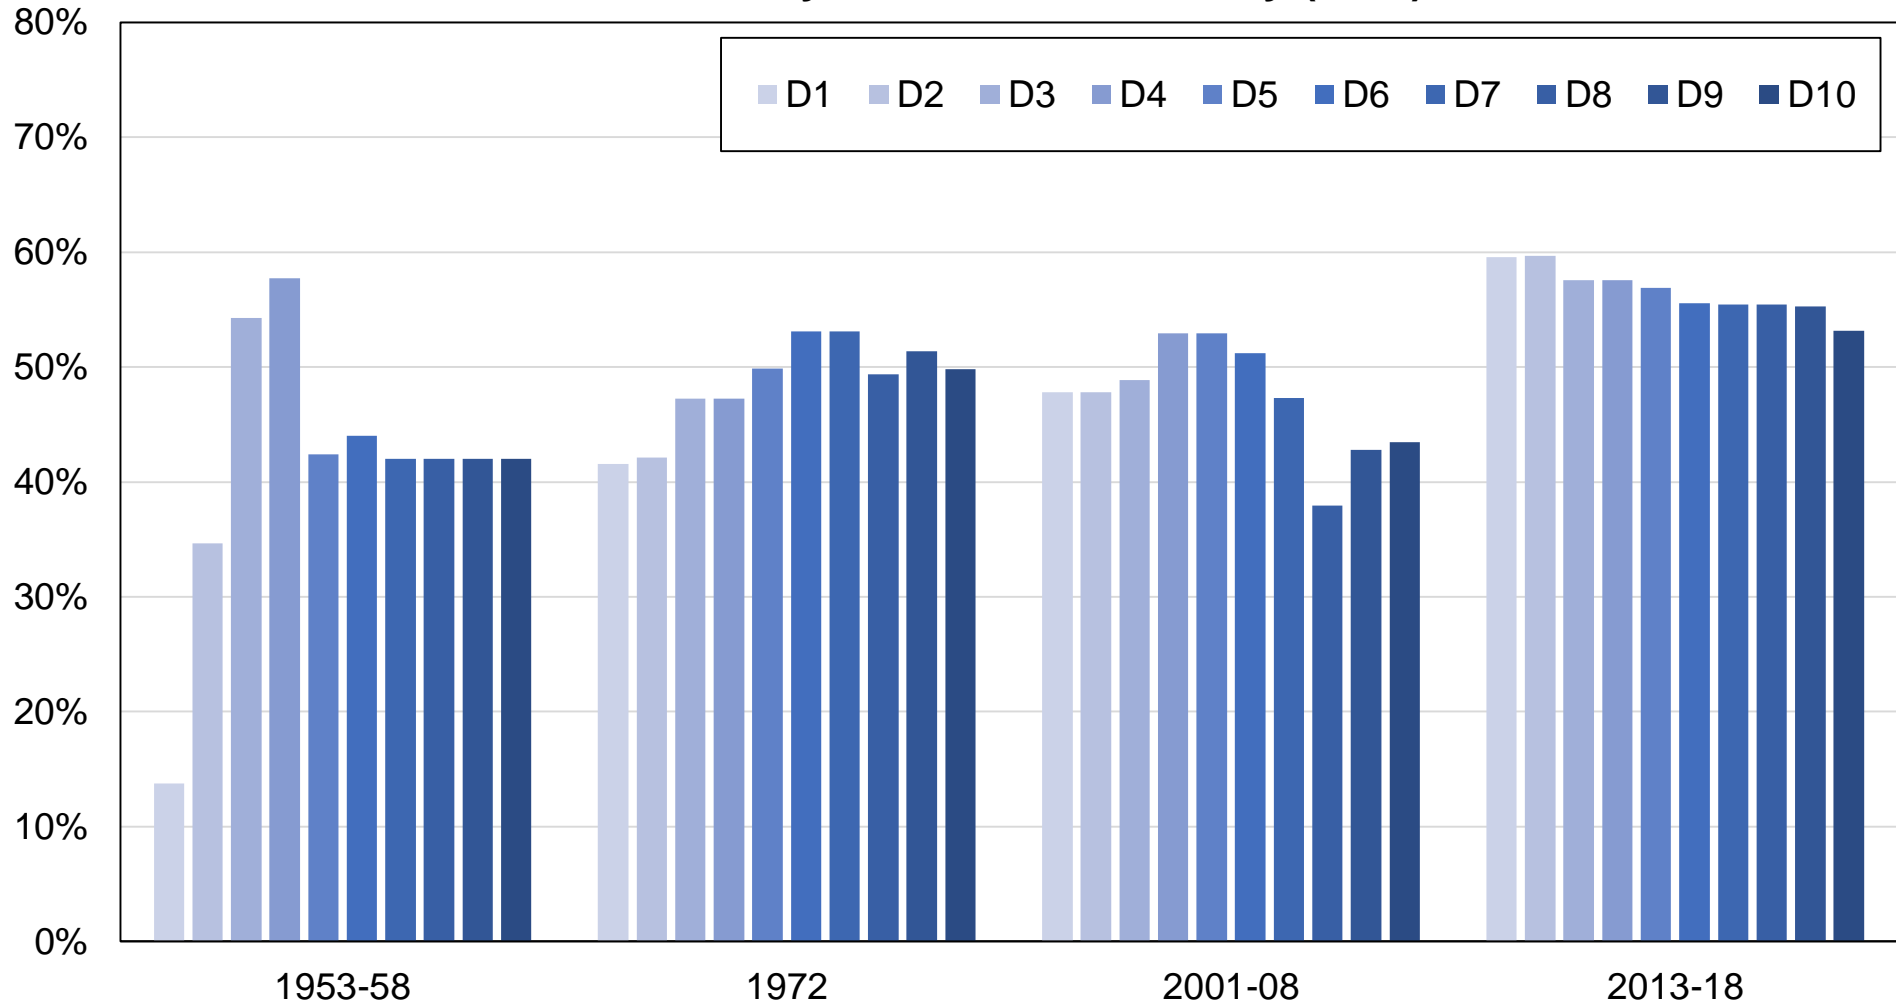

Figure AB2 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by education group in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by education group.

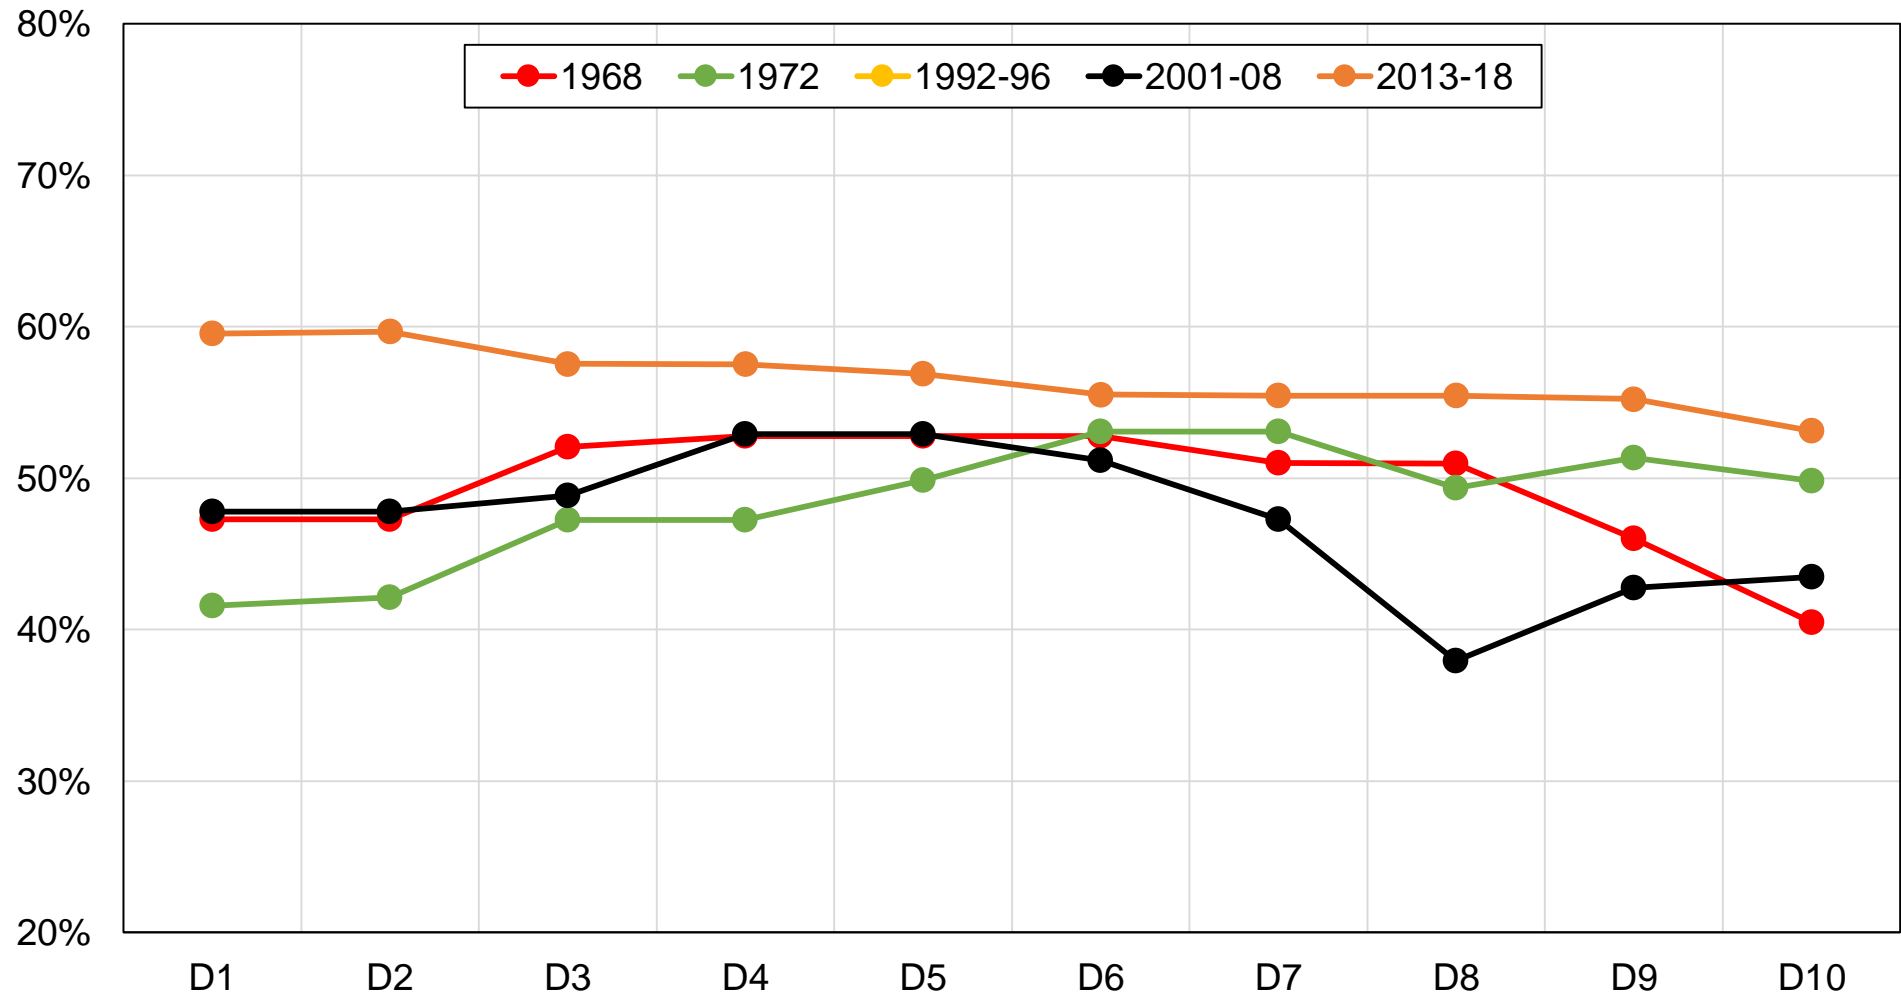

Figure AB3 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by income decile in Italy (bars)

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by income decile.

Figure AB4 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by income decile in Italy (lines)

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by income decile.

**Figure AB5 - Vote for Social Democrats / Socialists / Communists /
Greens / M5S by income group in Italy**

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by income group.

Figure AB6 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by religious affiliation in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by religious affiliation.

Figure AB7 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by church attendance in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by frequency of church attendance.

Figure AB8 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by occupation in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by occupation.

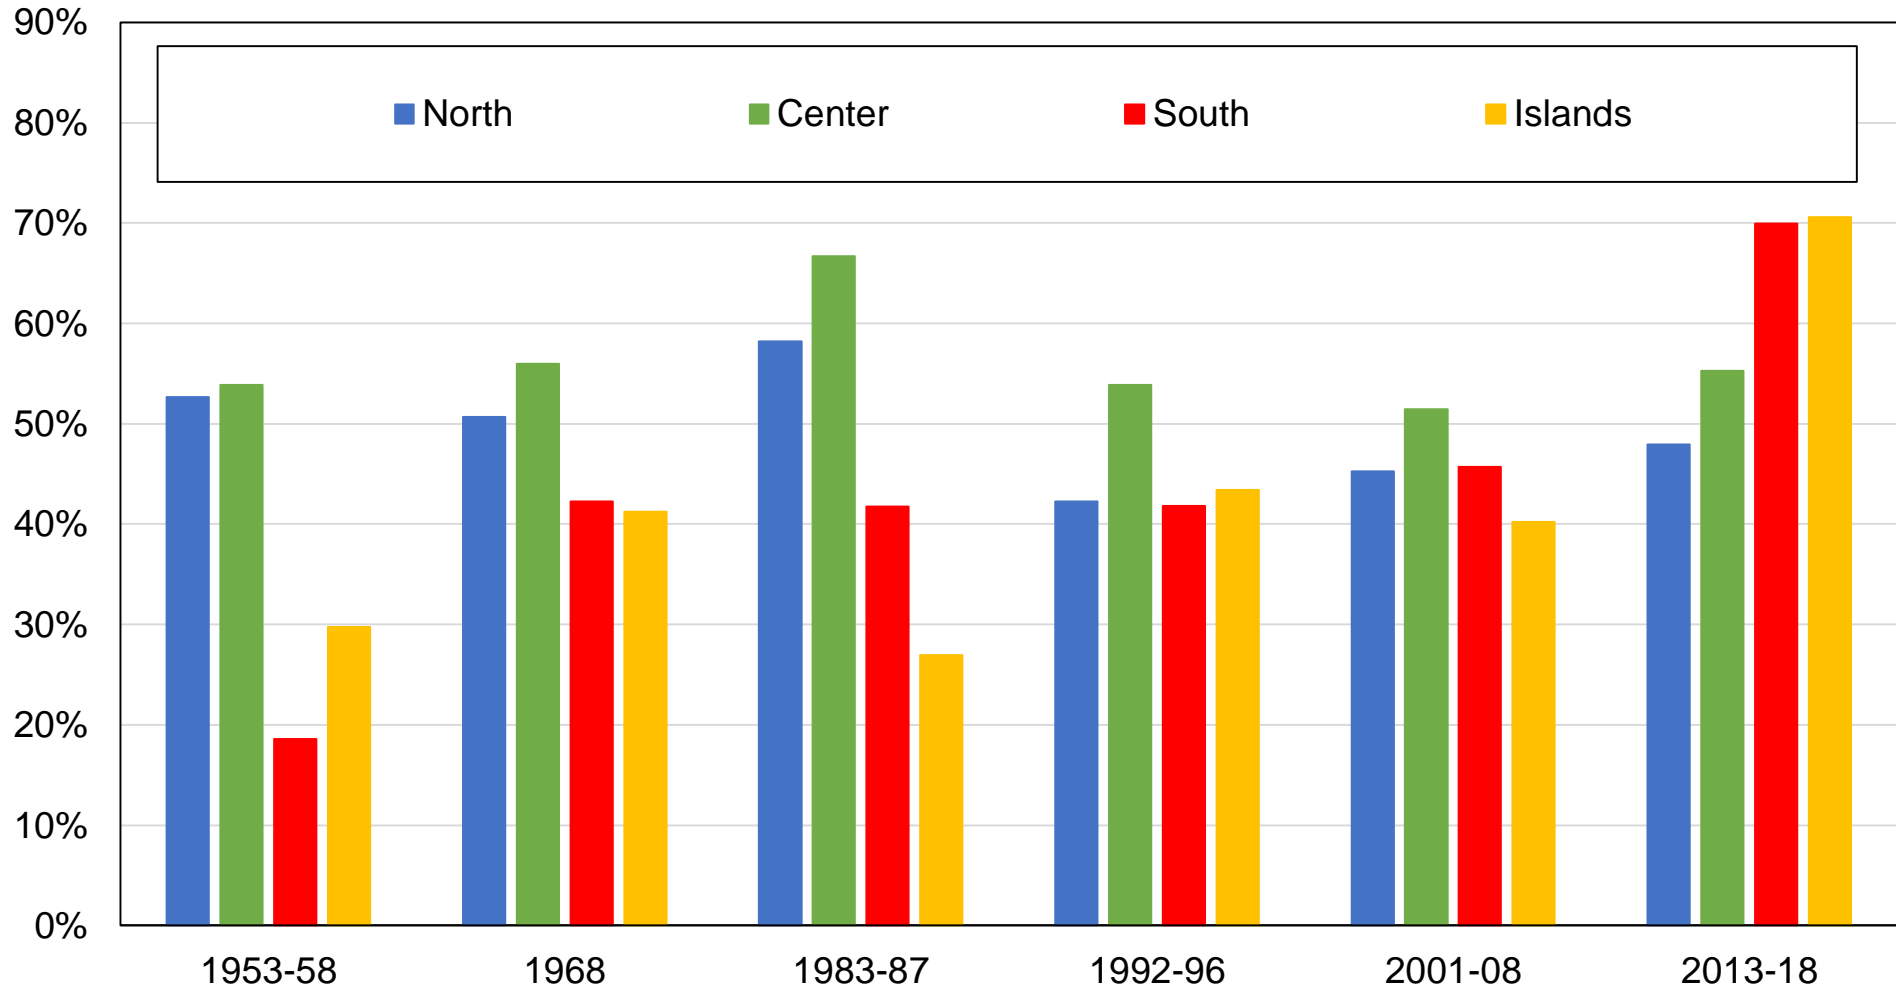

**Figure AB9 - Vote for Social Democrats / Socialists / Communists /
Greens / M5S by location in Italy**

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by rural-urban location.

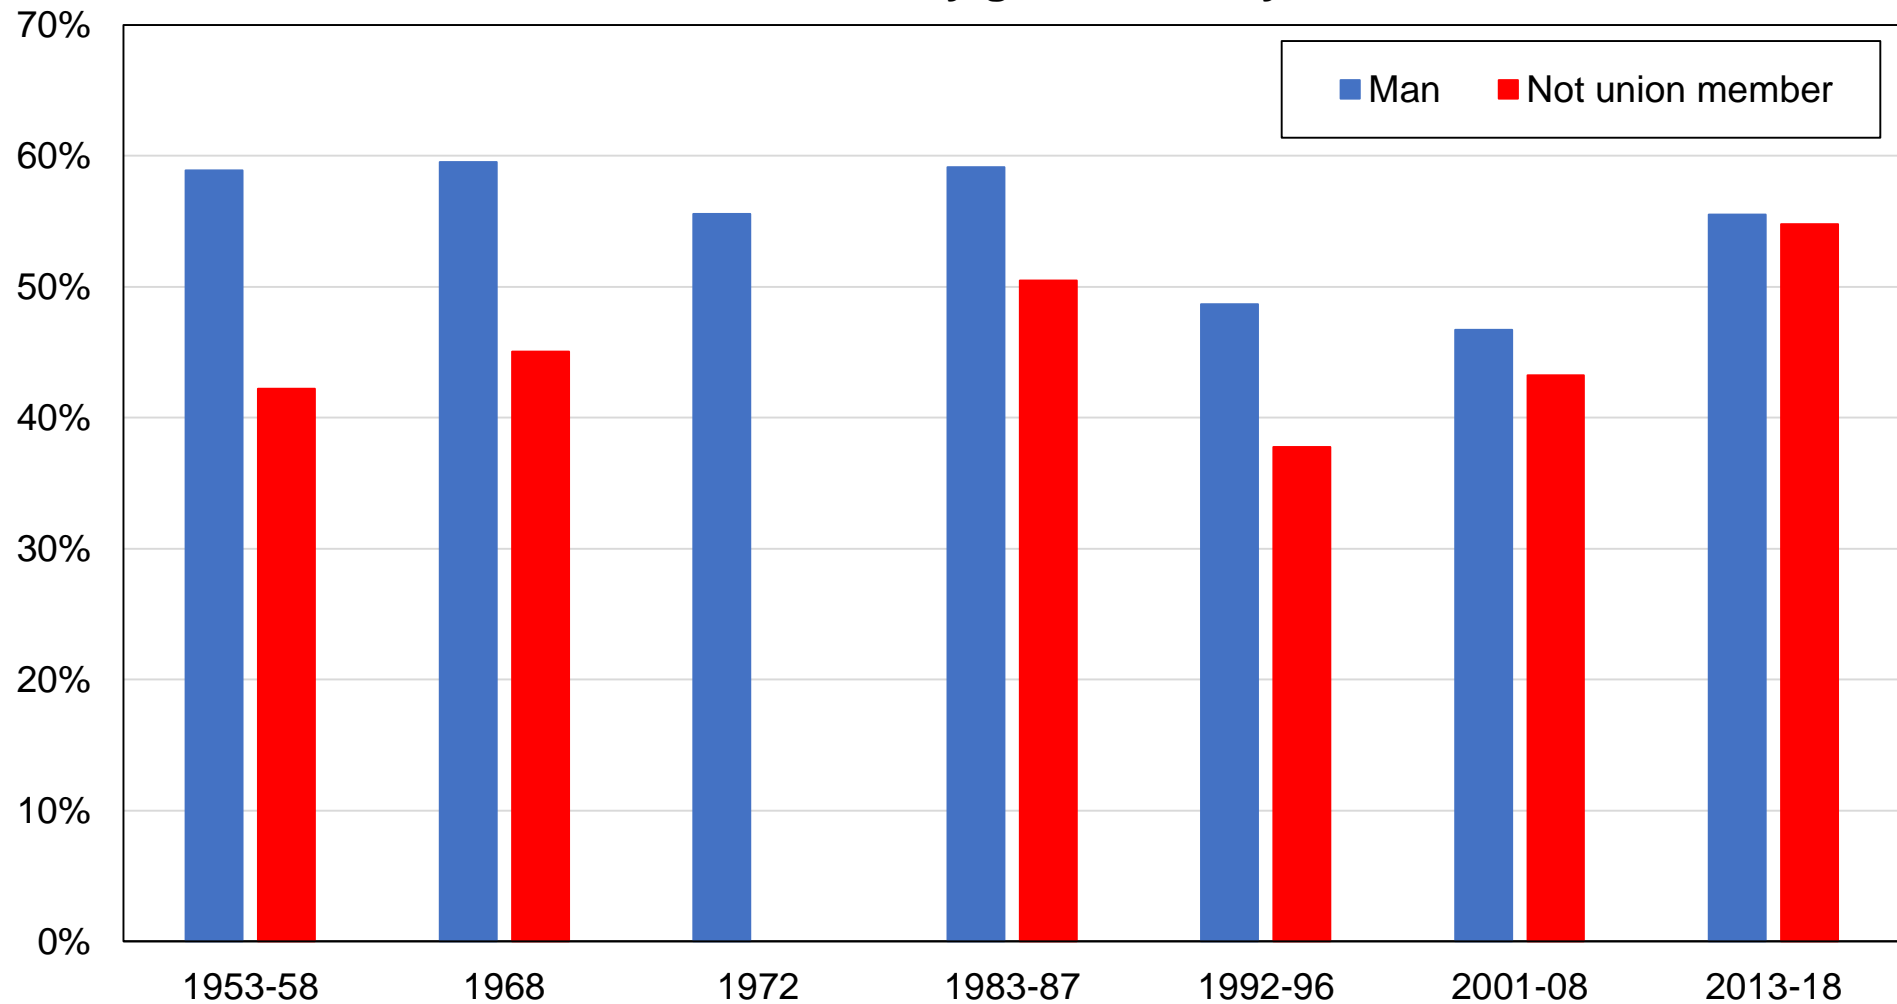

Figure AB10 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by region in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by state of residence.

Figure AB11 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by gender in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by gender.

Figure AB12 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by union membership in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by union membership status.

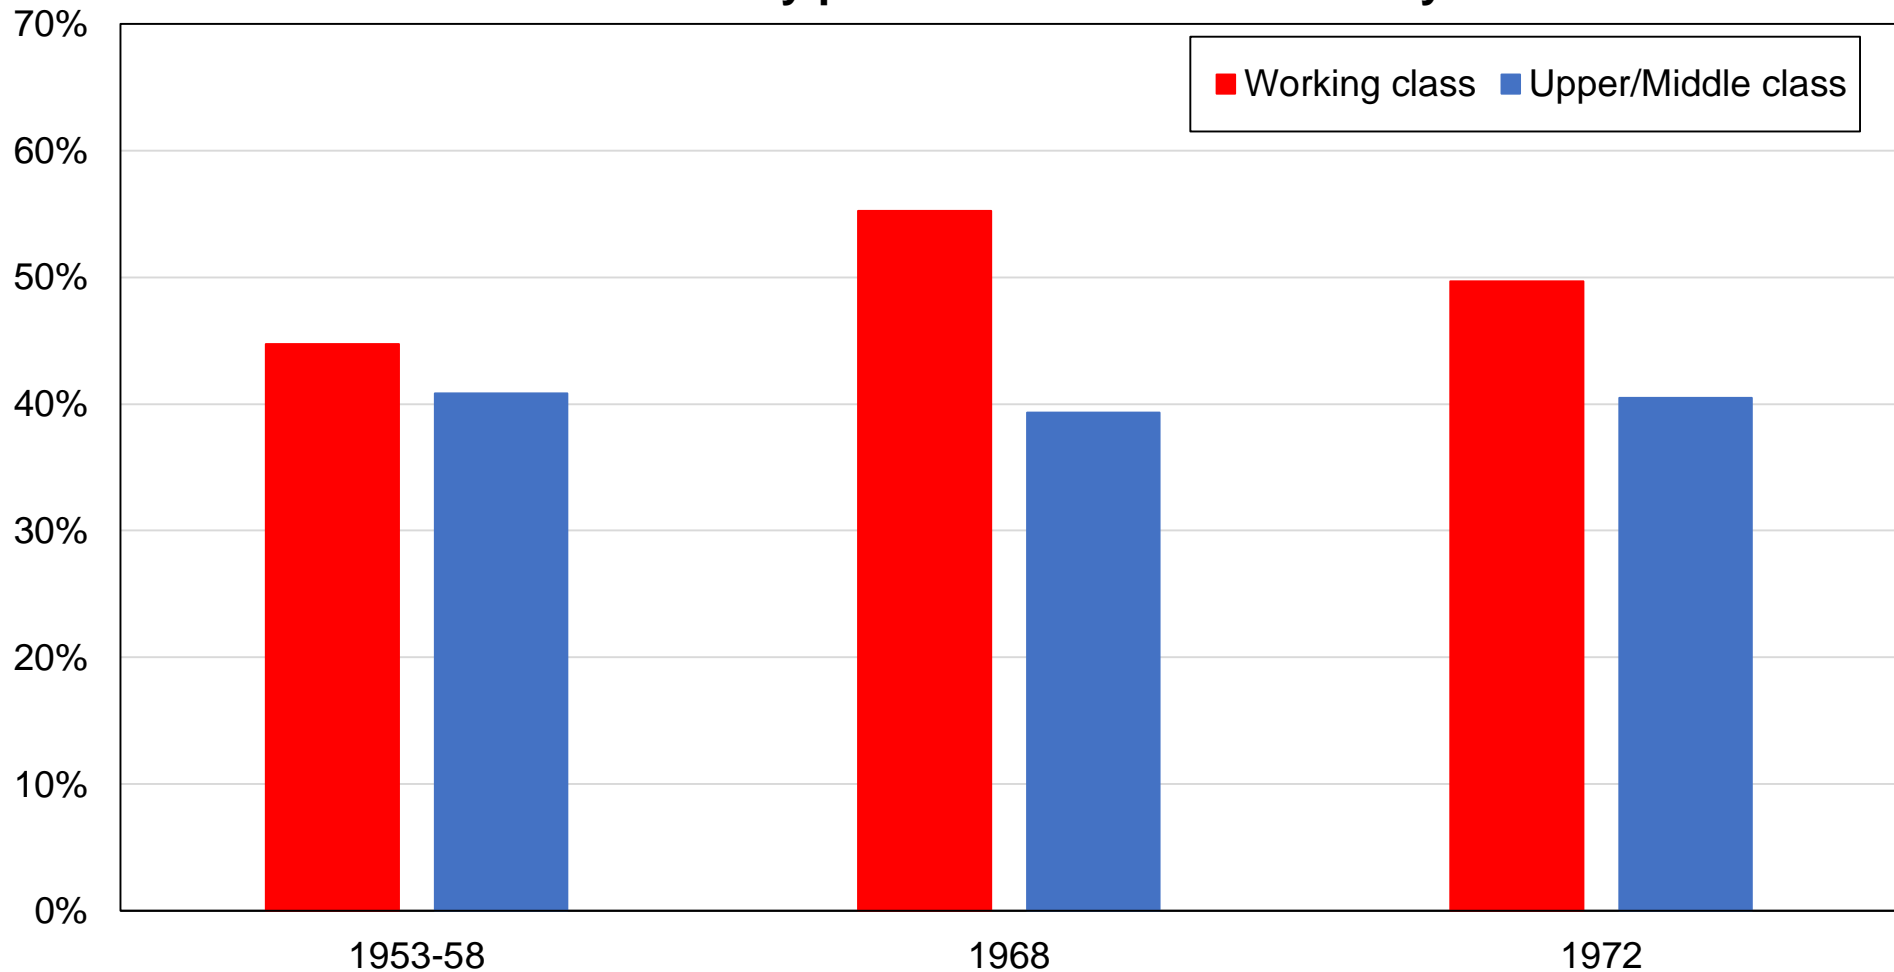

Figure AB13 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by marital status in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by marital status.

Figure AB14 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by perceived social class in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by self-perceived social class. Working class includes "lower class". Middle class includes "no class" and "upper class".

Figure AB15 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by home status

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by home ownership status.

Figure AB16 - Vote for Social Democrats / Socialists / Communists / Greens / M5S by age group in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by home ownership status.

Figure AB17 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among highest-educated and top income earners in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of top 10% educated and top income voters and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before controlling for other variables.

Figure AB18 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among highest-educated and top income earners in Italy, after controls

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of top 10% educated and top income voters and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, after controlling for age, gender, religious affiliation, religiosity, employment and marital status, union membership, perceived social class, urban-rural location and region.

Figure AB19 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among university graduates in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of university graduates and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

Figure AB20 - Vote for Social Democrats / Socialists / Communists / Greens (excl. M5S) among university graduates in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of university graduates and the share of other voters voting for Social Democrats / Socialists / Communists / Greens excluding 5 Stars Movement, before and after controlling for other variables.

Figure AB21 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among university graduates in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of university graduates and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

Figure AB22 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among university graduates in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of university graduates and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

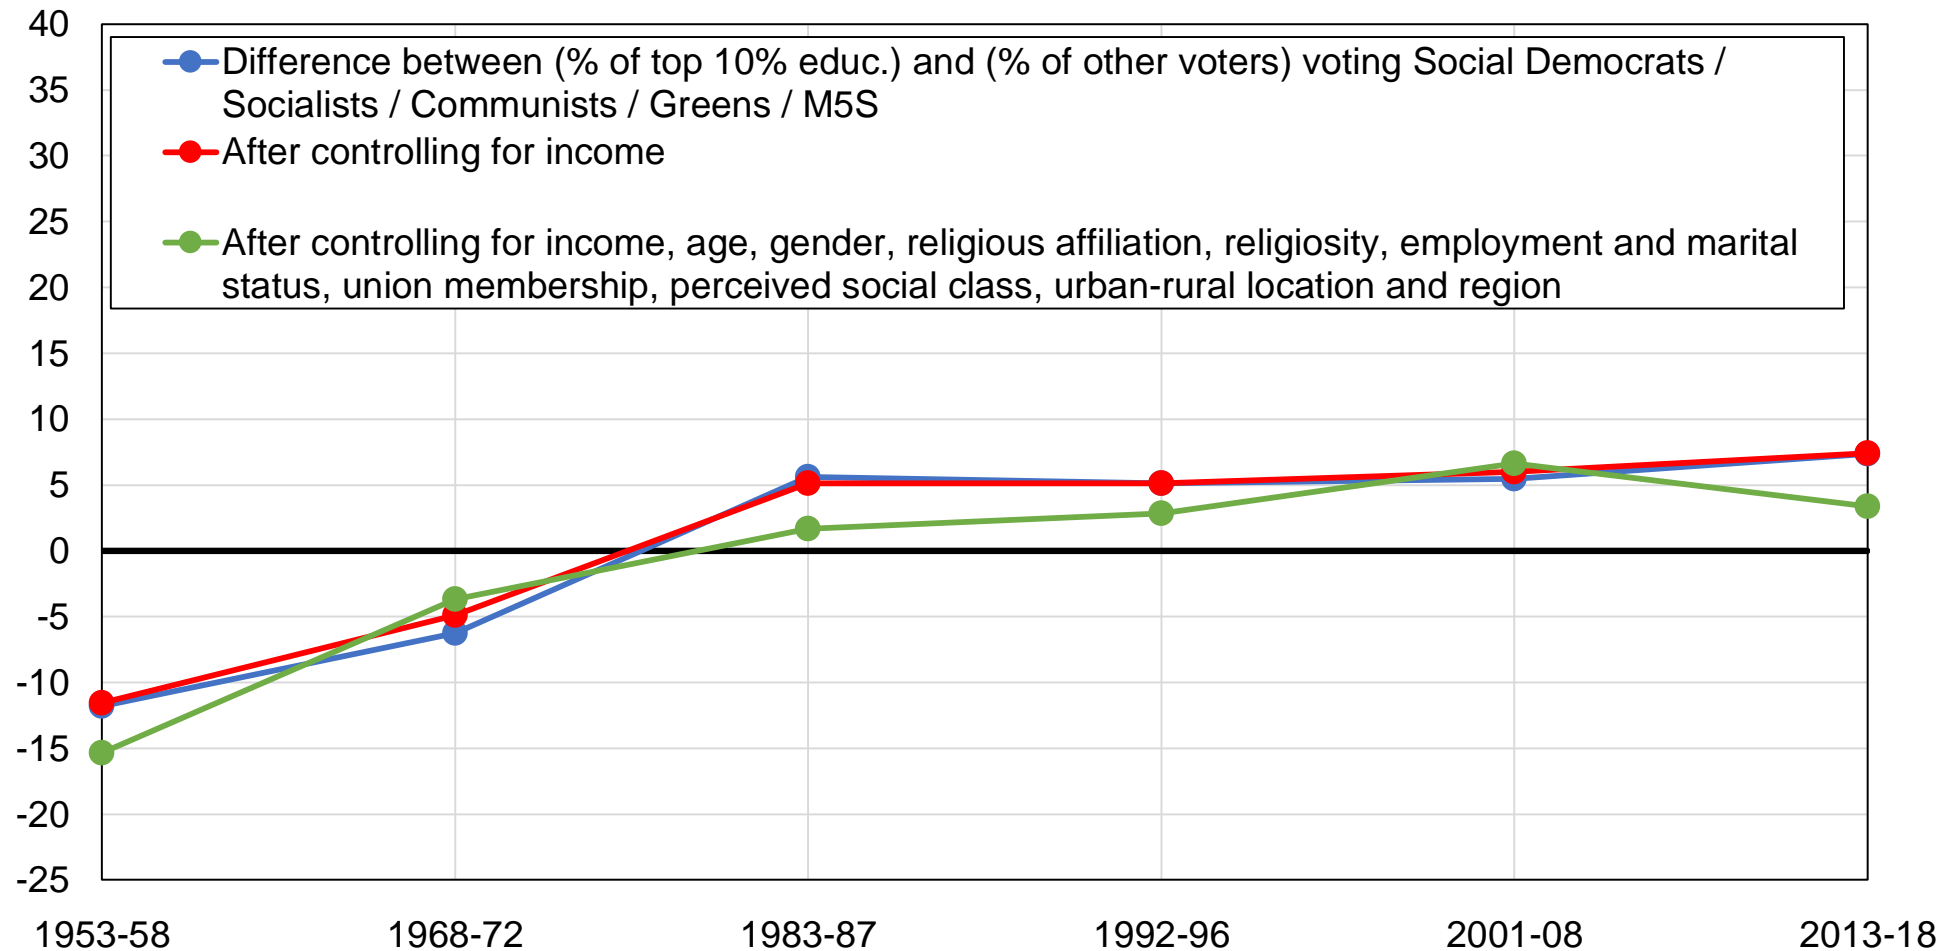

Figure AB23 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among university graduates in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of university graduates and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

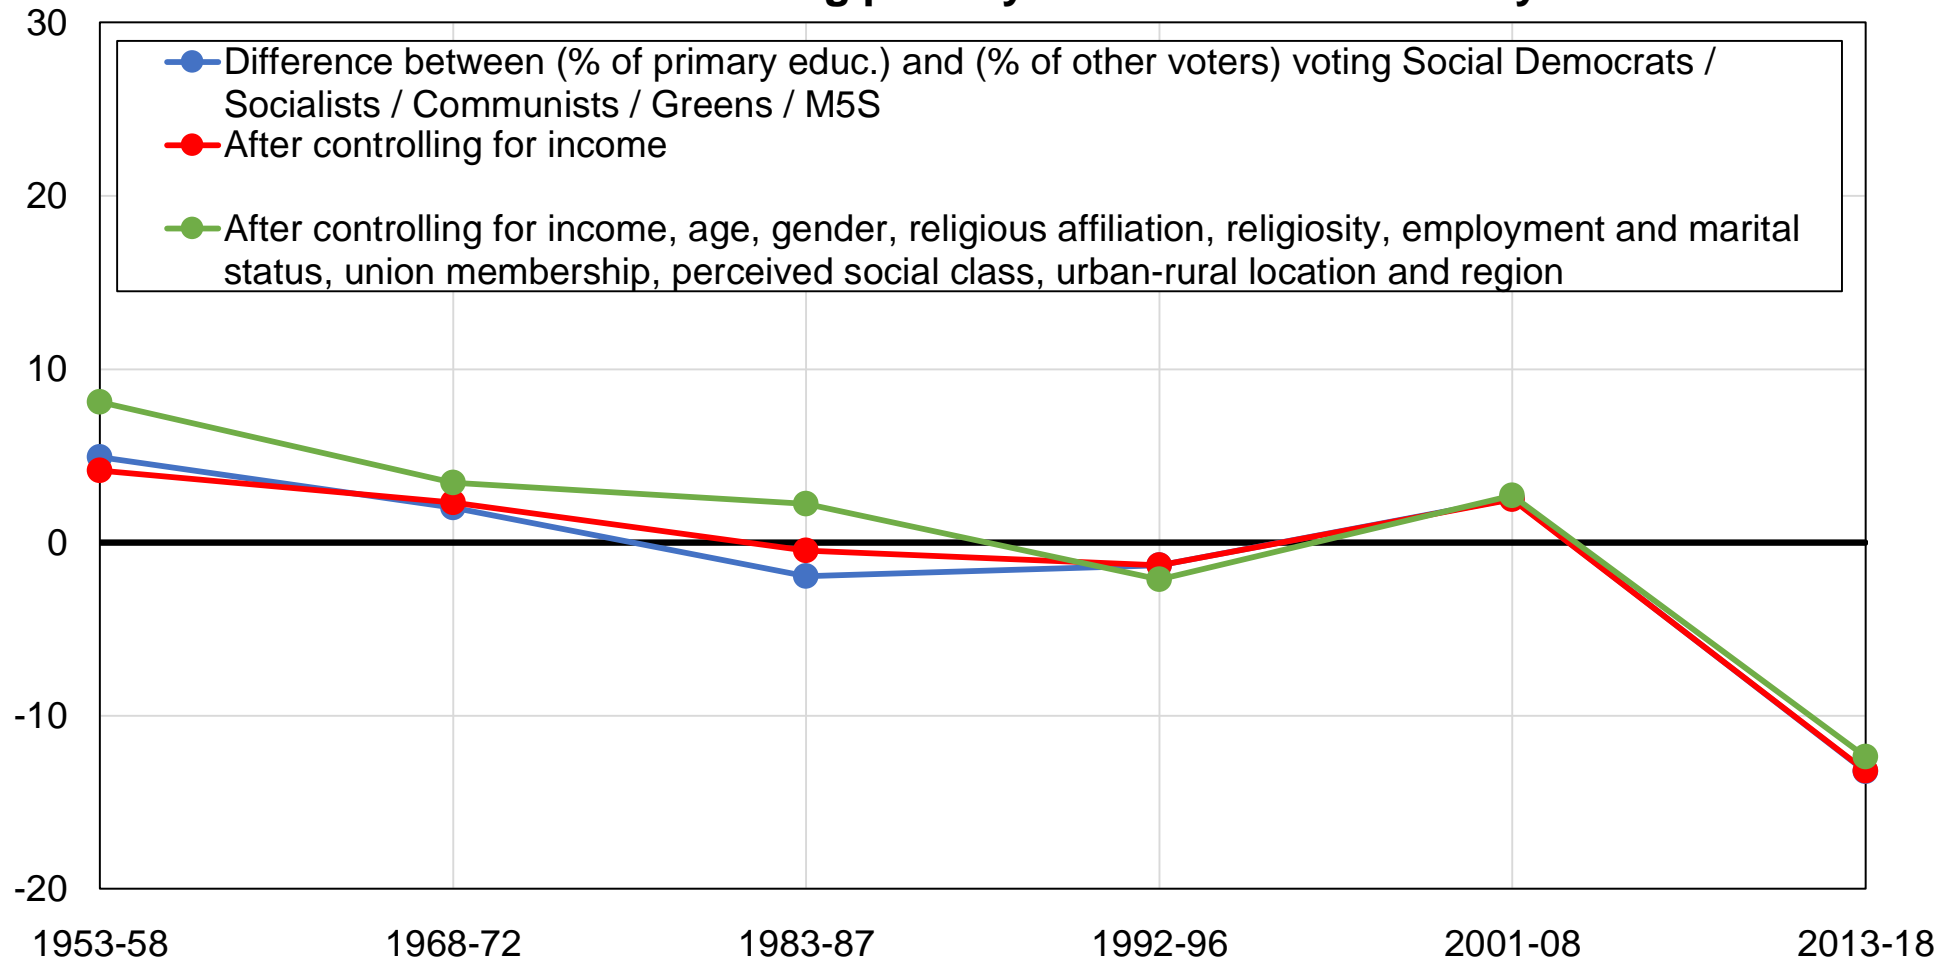

Figure AB24 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among highest-educated voters in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of top 10% educated voters and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

Figure AB25 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among primary-educated voters in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of primary-educated voters and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

Figure AB26 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among top 10% earners in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of top 10% earners and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

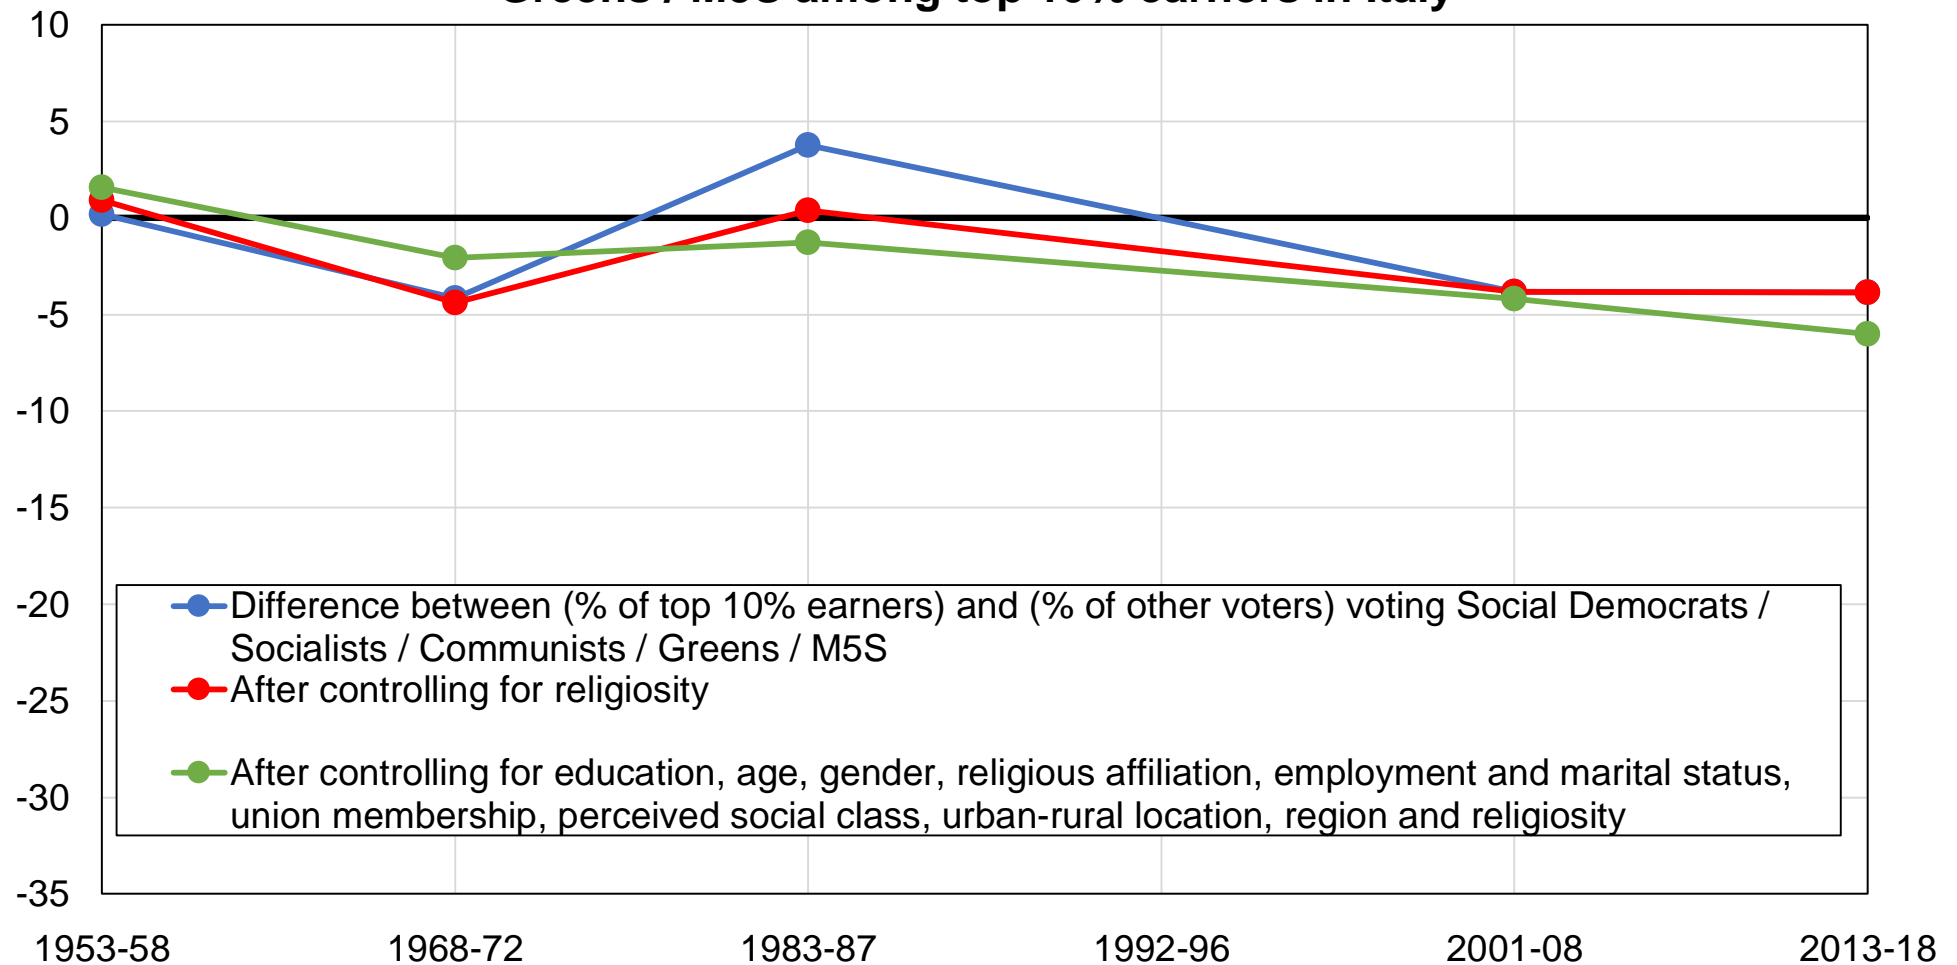

Figure AB27 - Vote for Social Democrats / Socialists / Communists / Greens (excl. M5S) among top 10% earners in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of top 10% earners and the share of other voters voting for Social Democrats / Socialists / Communists / Greens excluding 5 Star Movement, before and after controlling for other variables.

Figure AB28 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among top 10% earners in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of top 10% earners and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

Figure AB29 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among top 10% earners in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of top 10% earners and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

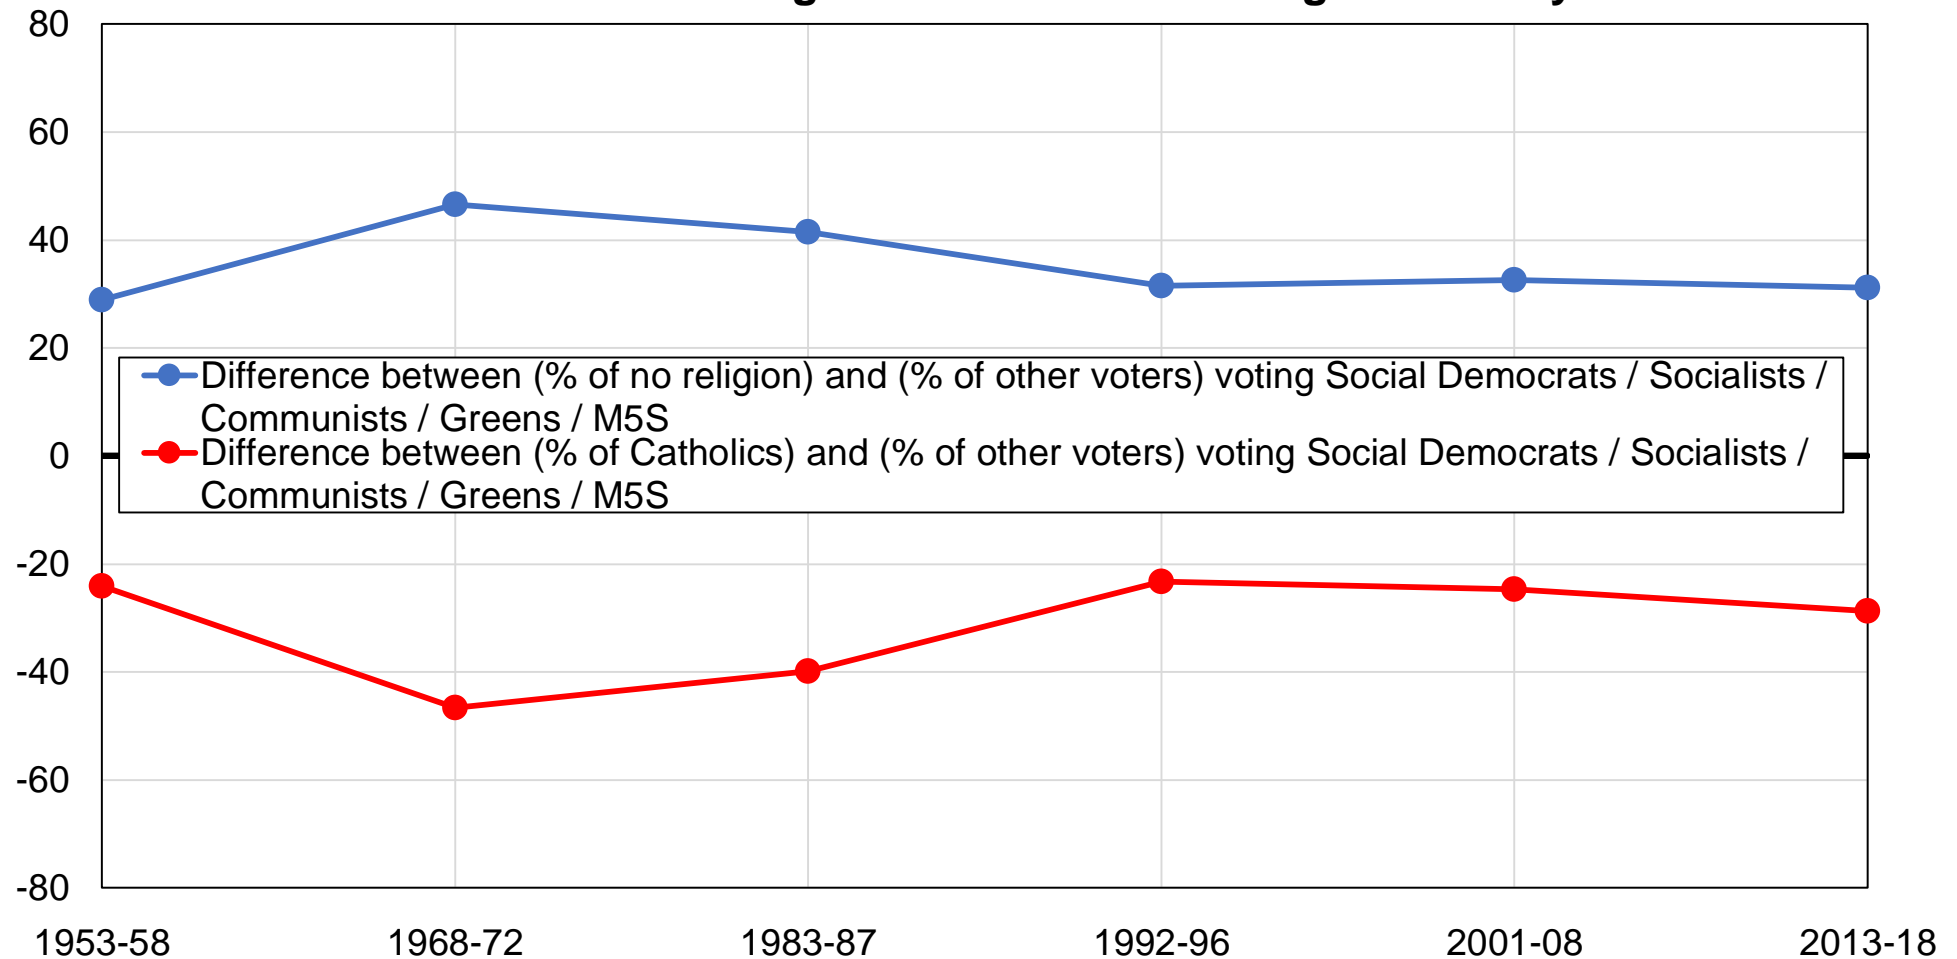

Figure AB30 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among top 10% earners in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of top 10% earners and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

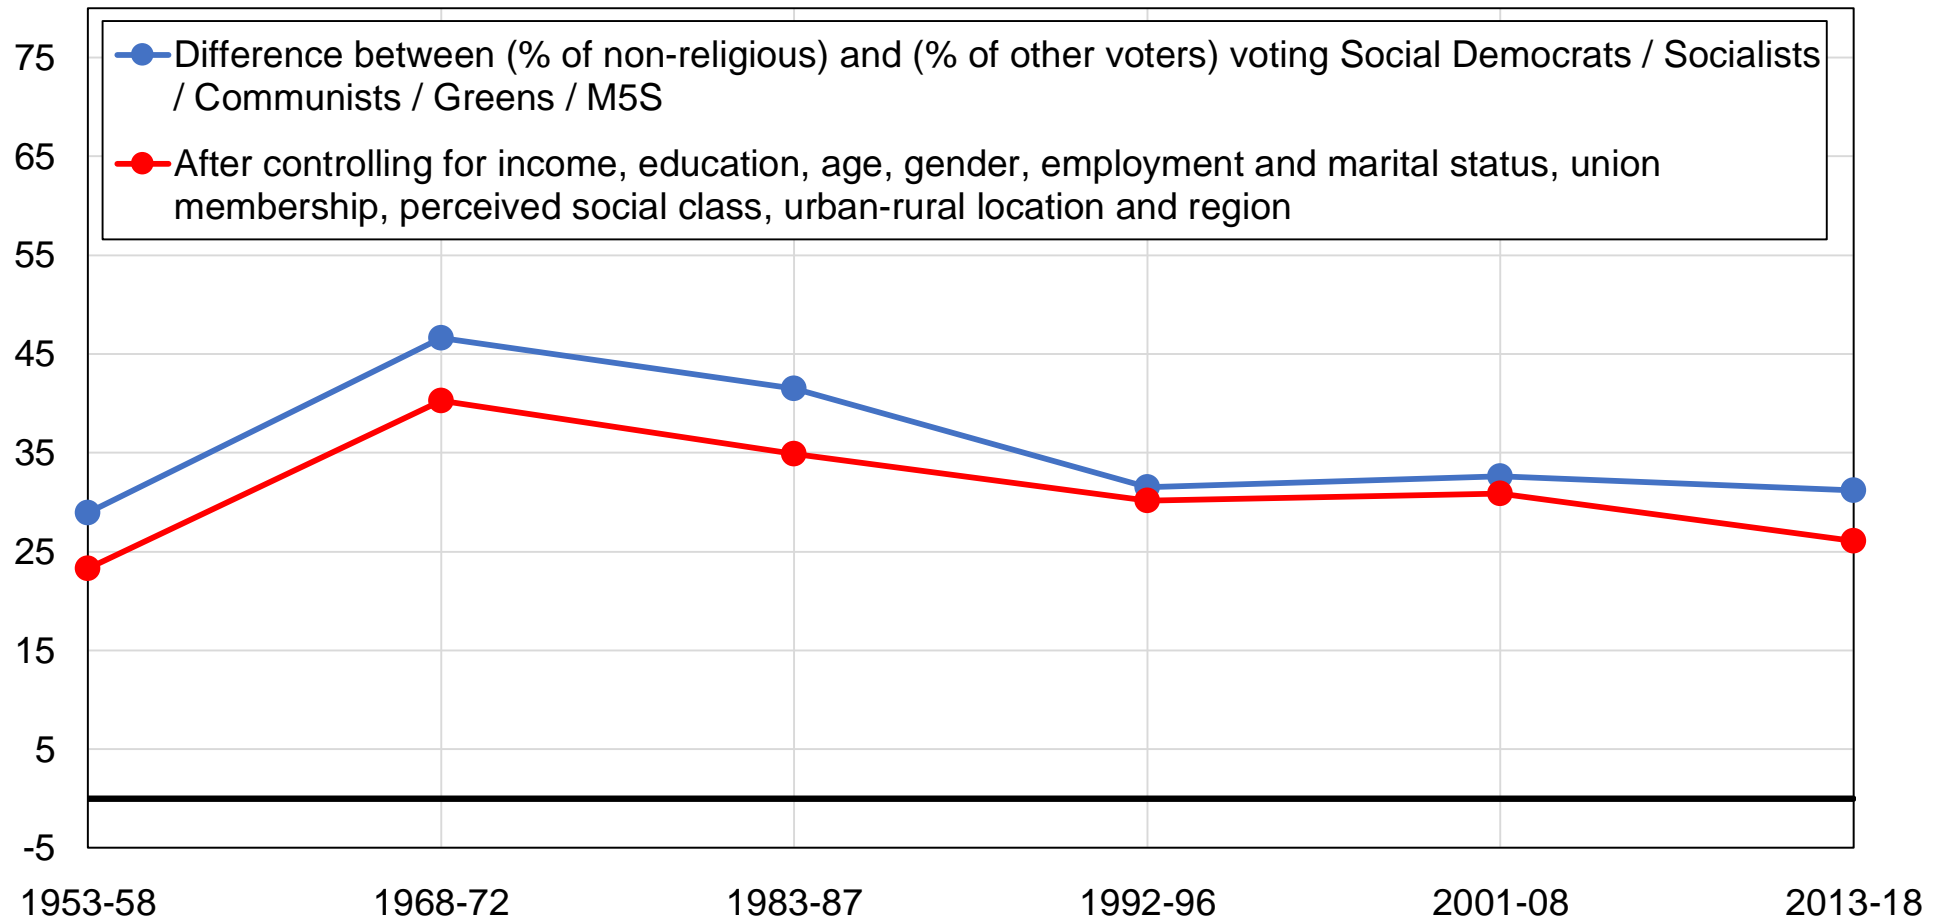

Figure AB31 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among Catholics and non-religious in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of voters declaring no religion and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, as well as the same difference between Catholics and others voters.

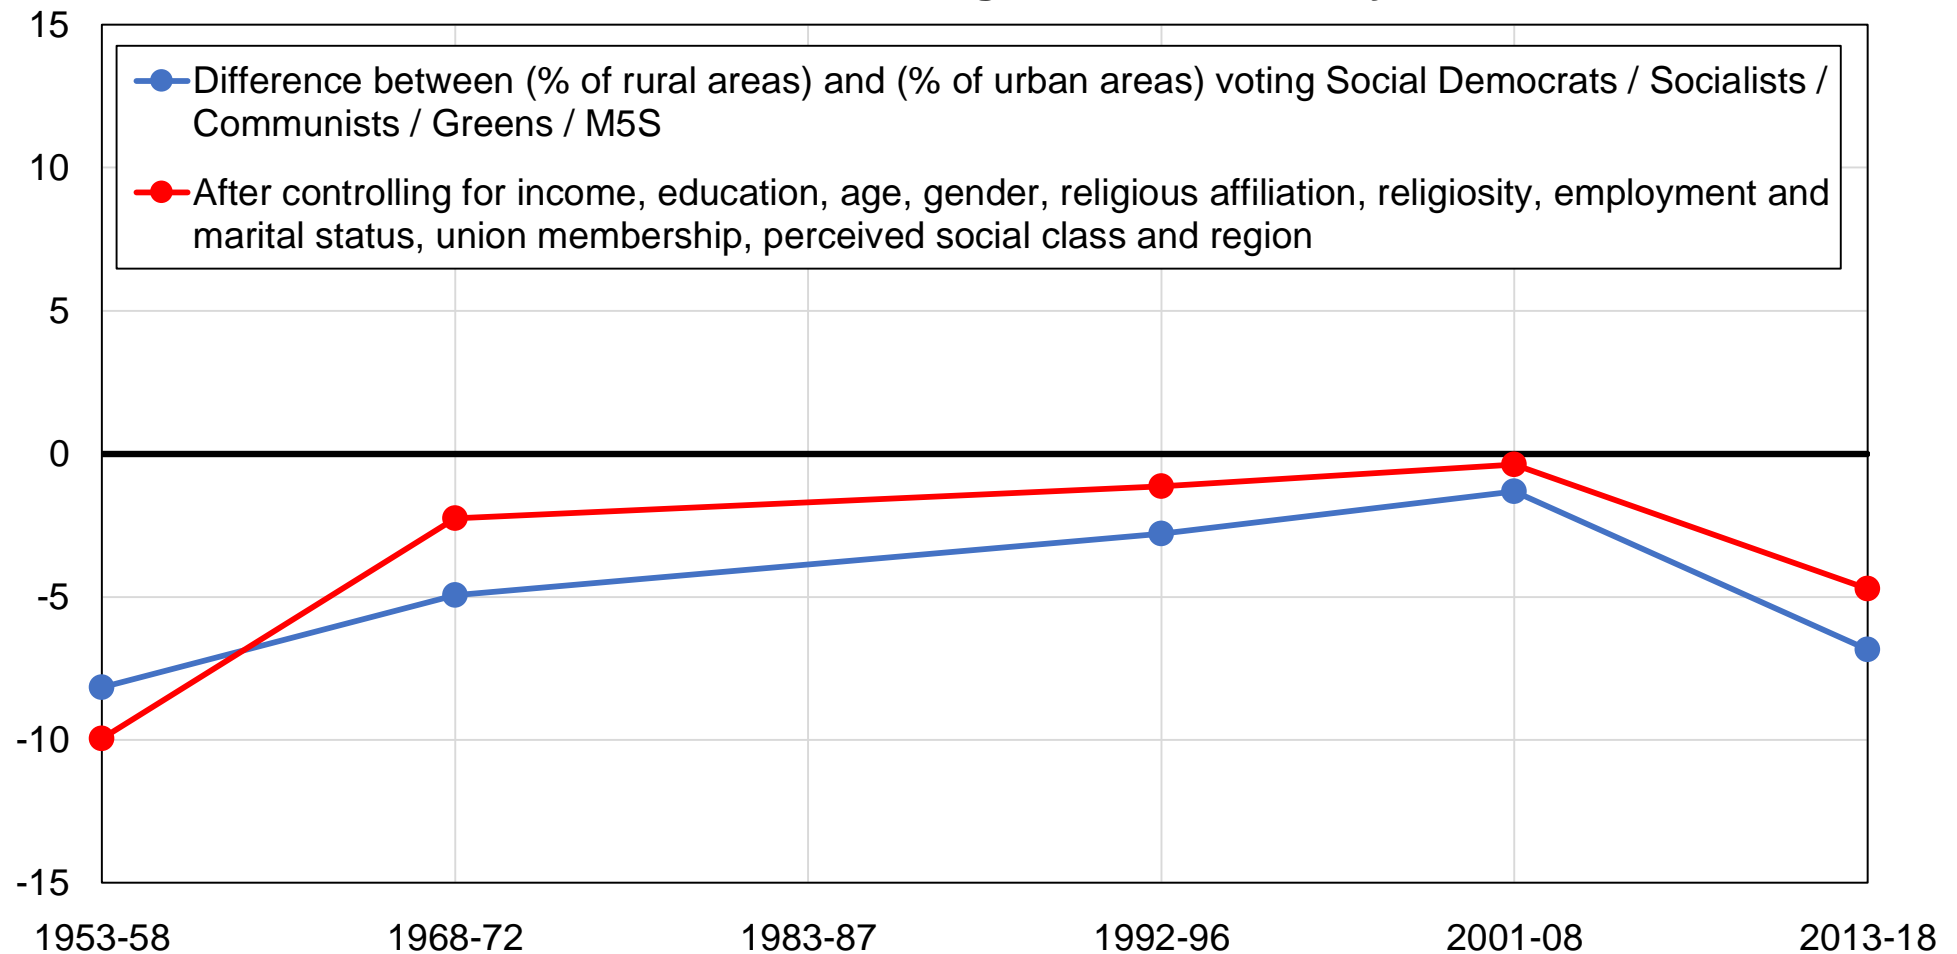

Figure AB32 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among the non-religious in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of voters never going to church and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

Figure AB33 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among rural areas in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of rural areas and the share of urban areas voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

Figure AB34 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among women in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of women and the share of men voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

Figure AB35 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among union members in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of union members and the share of other voters voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

Figure AB36 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among young voters in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of voters aged 20-39 and the share of voters older than 40 voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

Figure AB37 - Vote for Social Democrats / Socialists / Communists / Greens / M5S among the working class in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the difference between the share of voters perceiving themselves as "working class" and the share of other voters perceiving themselves as "middle class" or "no class" voting for Social Democrats / Socialists / Communists / Greens / M5S, before and after controlling for other variables.

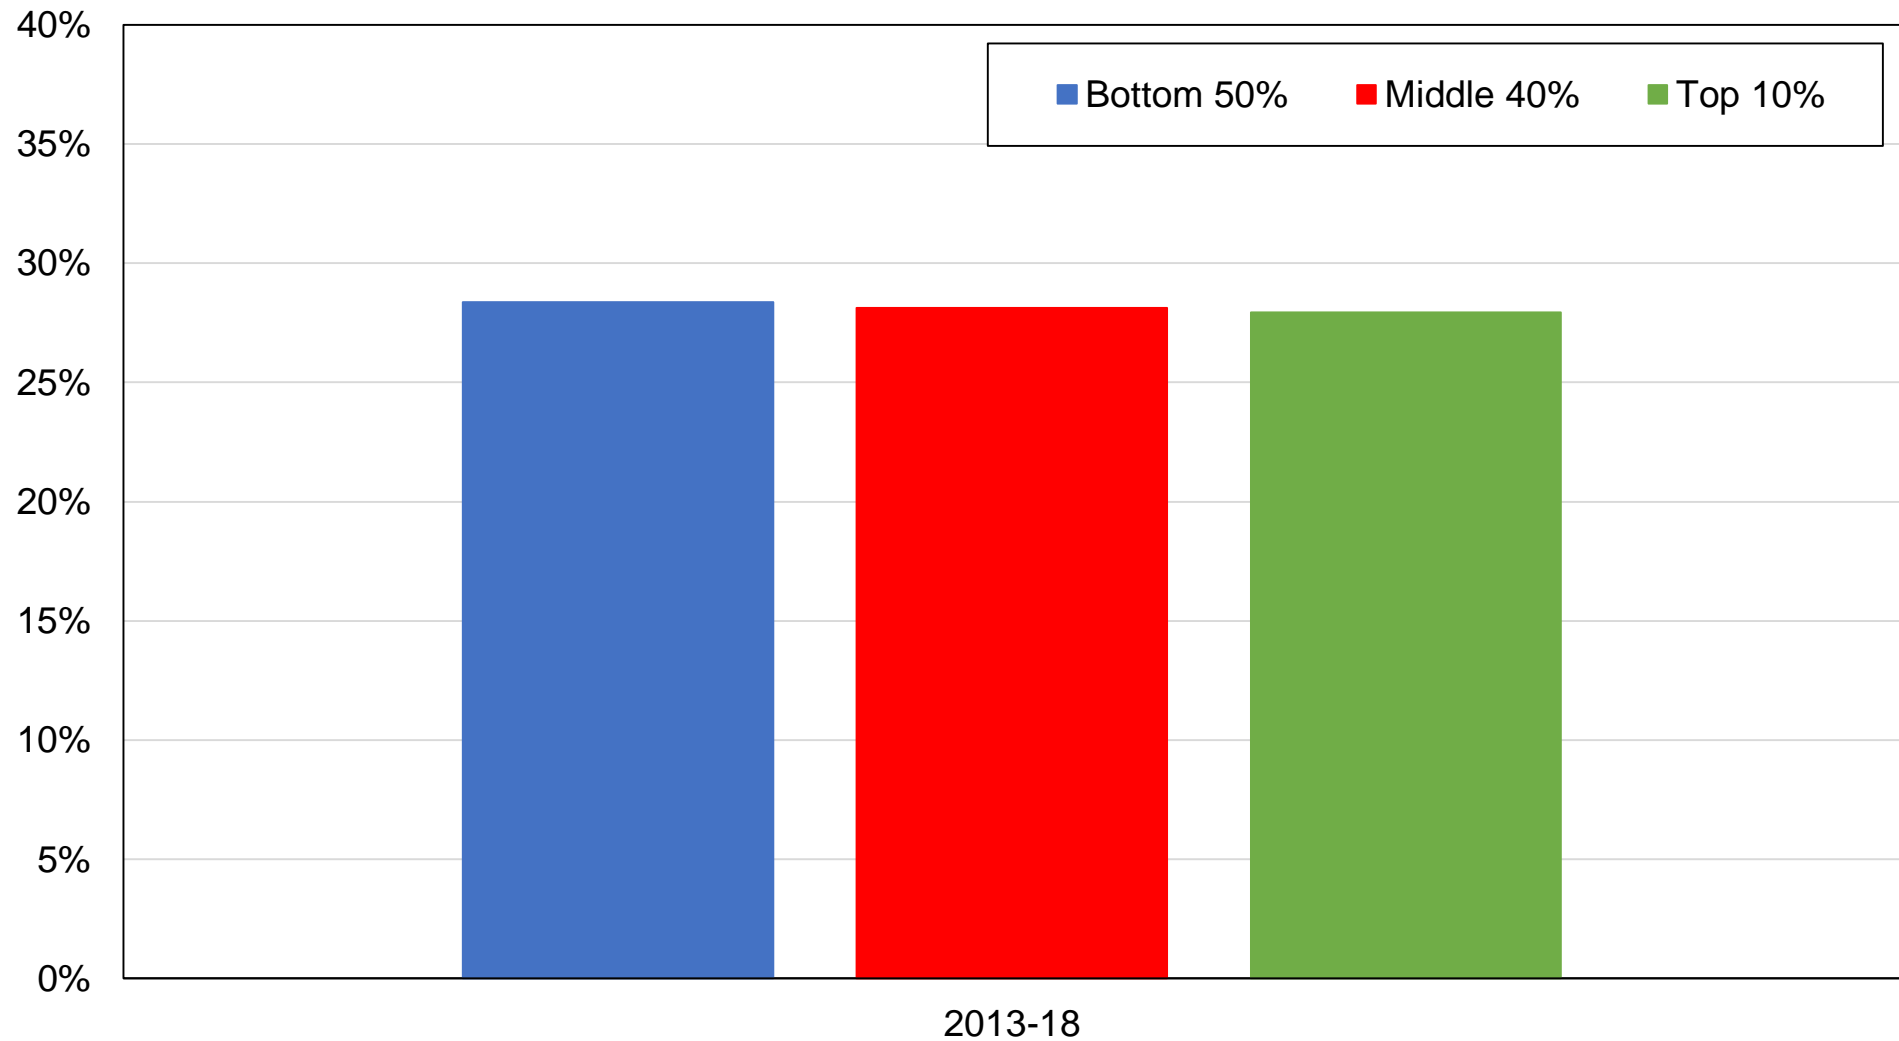

Figure AC1 - Vote for Five Star Movement by education level in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Five Star Movement by education level.

Figure AC2 - Vote for Five Star Movement by education group in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Five Star Movement by education group.

Figure AC3 - Vote for Five Star Movement by income group in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Five Star Movement by income group.

Figure AC4 - Vote for Five Star Movement by religious affiliation in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Five Star Movement by religious affiliation.

Figure AC5 - Vote for Five Star Movement by gender in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by the Five Star Movement by gender.

Figure AC6 - Vote for the Five Star Movement by union membership in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by the Five Star Movement by union membership status.

Figure AC7 - Vote for Five Star Movement by home status in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by the Five Star Movement by home ownership status.

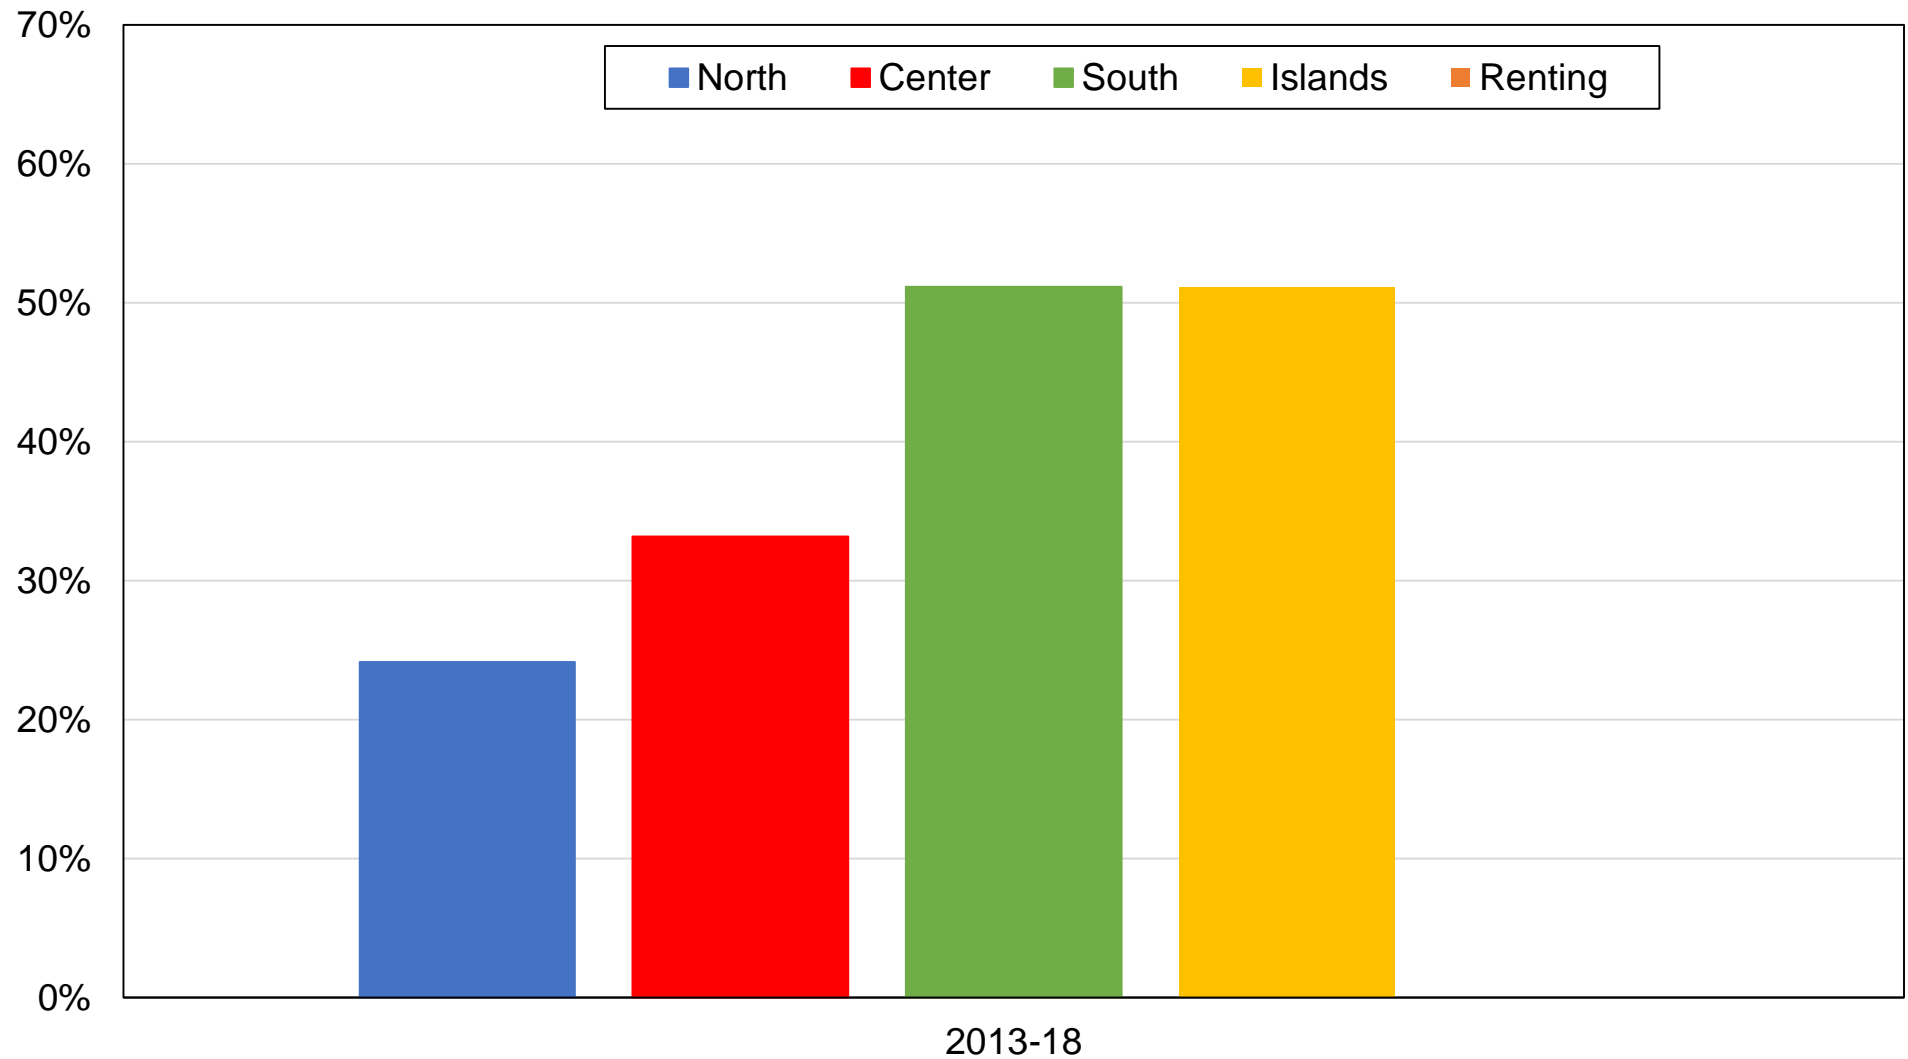

Figure AC8 - Vote for Five Star Movement by age in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Five Star Movement by age.

Figure AC9 - Vote for Five Star Movement by region in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Five Star Movement by region.

Figure AC10 - Vote for Lega Nord by education level in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Lega Nord by education level. Note that no interviewee with only primary education reports having voted to Lega over the decade 2013-18.

Figure AC11 - Vote for Lega Nord by education group in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Lega Nord by education group.

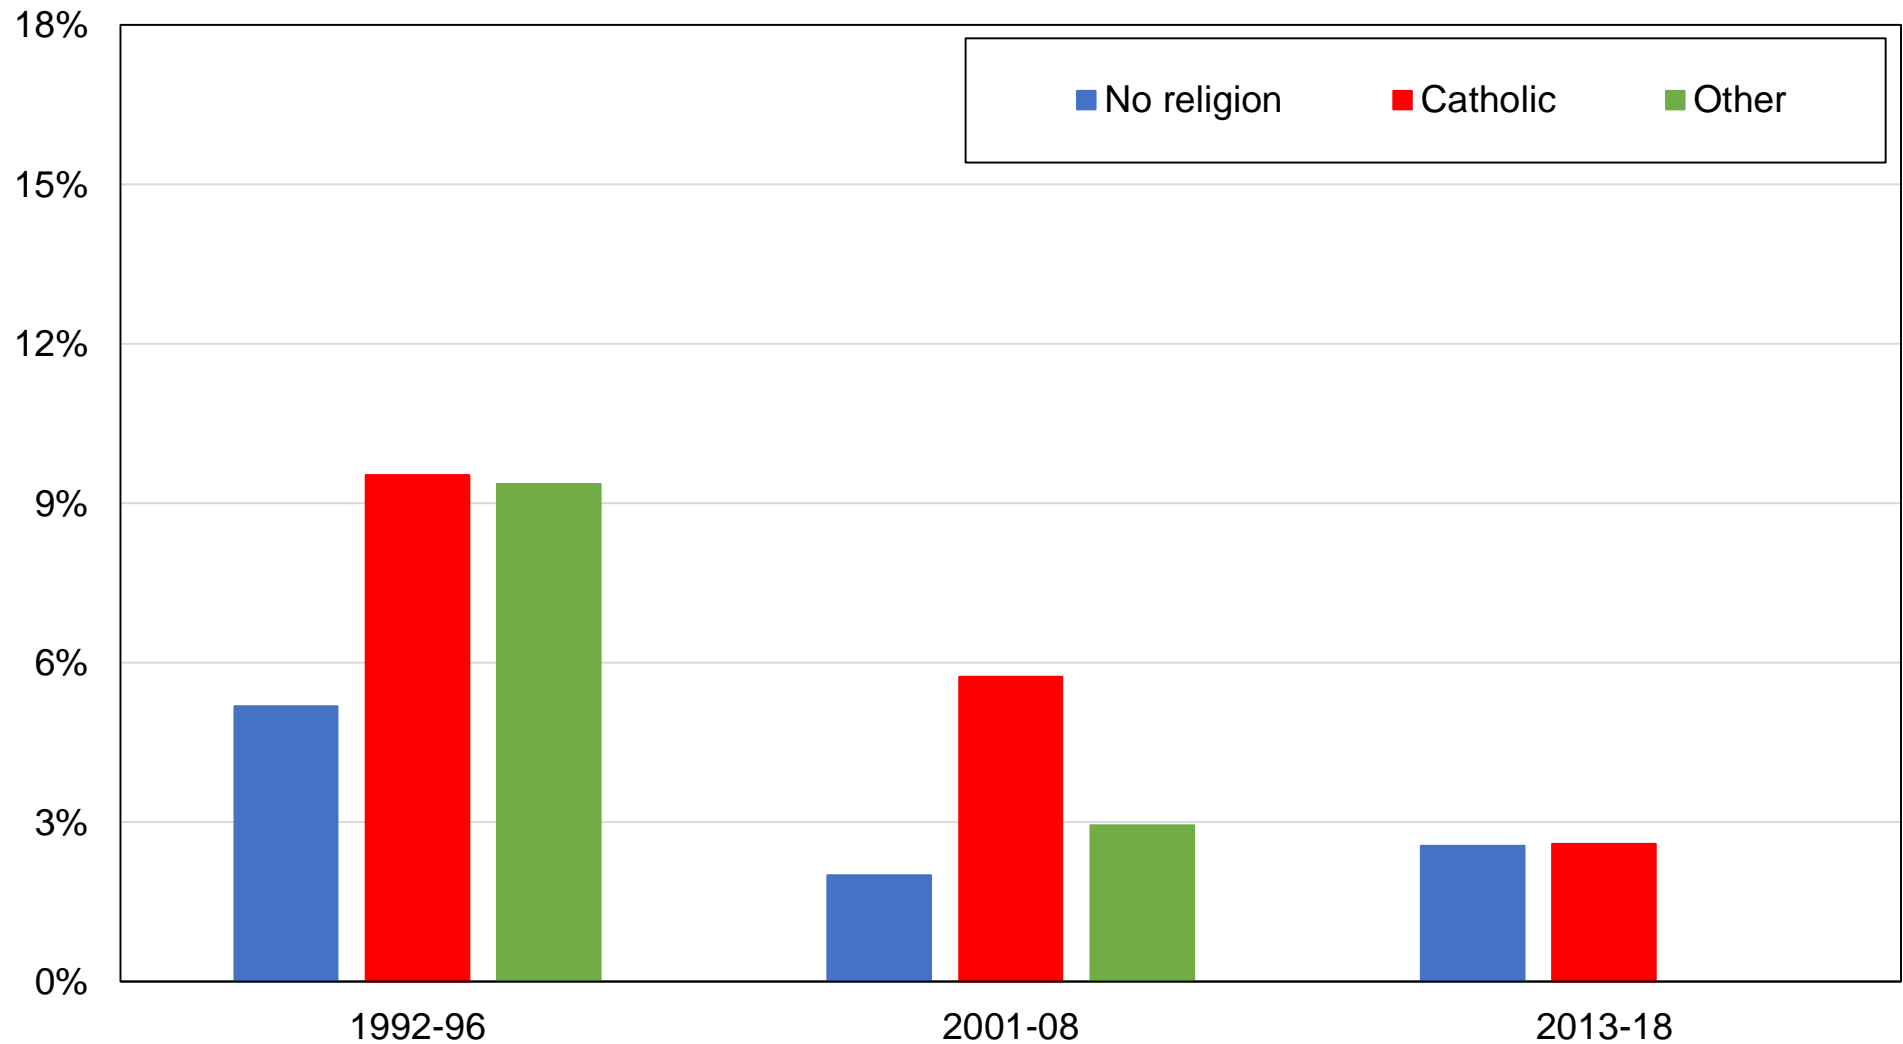

Figure AC12 - Vote for Lega Nord by income group in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Lega Nord by income group.

Figure AC13 - Vote for Lega Nord by religious affiliation in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Lega Nord by religious affiliation.

Figure AC14 - Vote for Lega Nord by religiosity in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Lega Nord by church attendance.

Figure AC15 - Vote for Lega Nord by gender in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Lega Nord by gender.

Figure AC16 - Vote for Lega Nord by union membership in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Lega Nord by union membership status.

Figure AC17 - Vote for Lega Nord by region in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Lega Nord by region.

Figure AC18 - Vote for Lega Nord by age in Italy

Source: authors' computations using Italian political attitudes surveys.

Note: the figure shows the share of votes received by Lega Nord by age.

Figure AC19 - The education cleavage in Italy

Source: authors' computations using Italy political attitudes surveys.

Note: the figure shows the bias of highest-educated voters towards the most relevant Italian parties.

Other	17%	39%	9%	10%	9%	11%
No religion	35%	24%	8%	4%	7%	17%

Source: authors' computations using Spanish political attitudes surveys.

Notes: the table shows the average share of votes received by the main political parties by selected individual characteristics in the two 2019 elections.

Figure BA1 - General election results in Spain by group, 1977-2019

Source: author's computations using official election results.

Note: the figure shows the share of votes received by left-wing and center to right-wing parties in all Spanish general elections between 1977 and 2019.

Figure BA2 - The composition of the electorate by education level in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the composition of the electorate by education level.

Figure BA3 - The composition of the electorate by age group in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the composition of the electorate by age group.

Figure BA4 - The composition of the electorate by church attendance in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the composition of the electorate by church attendance.

Figure BA5 - The composition of income quintiles by education level in Spain, 1980s

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the composition of income quintiles by education level in the 1980s.

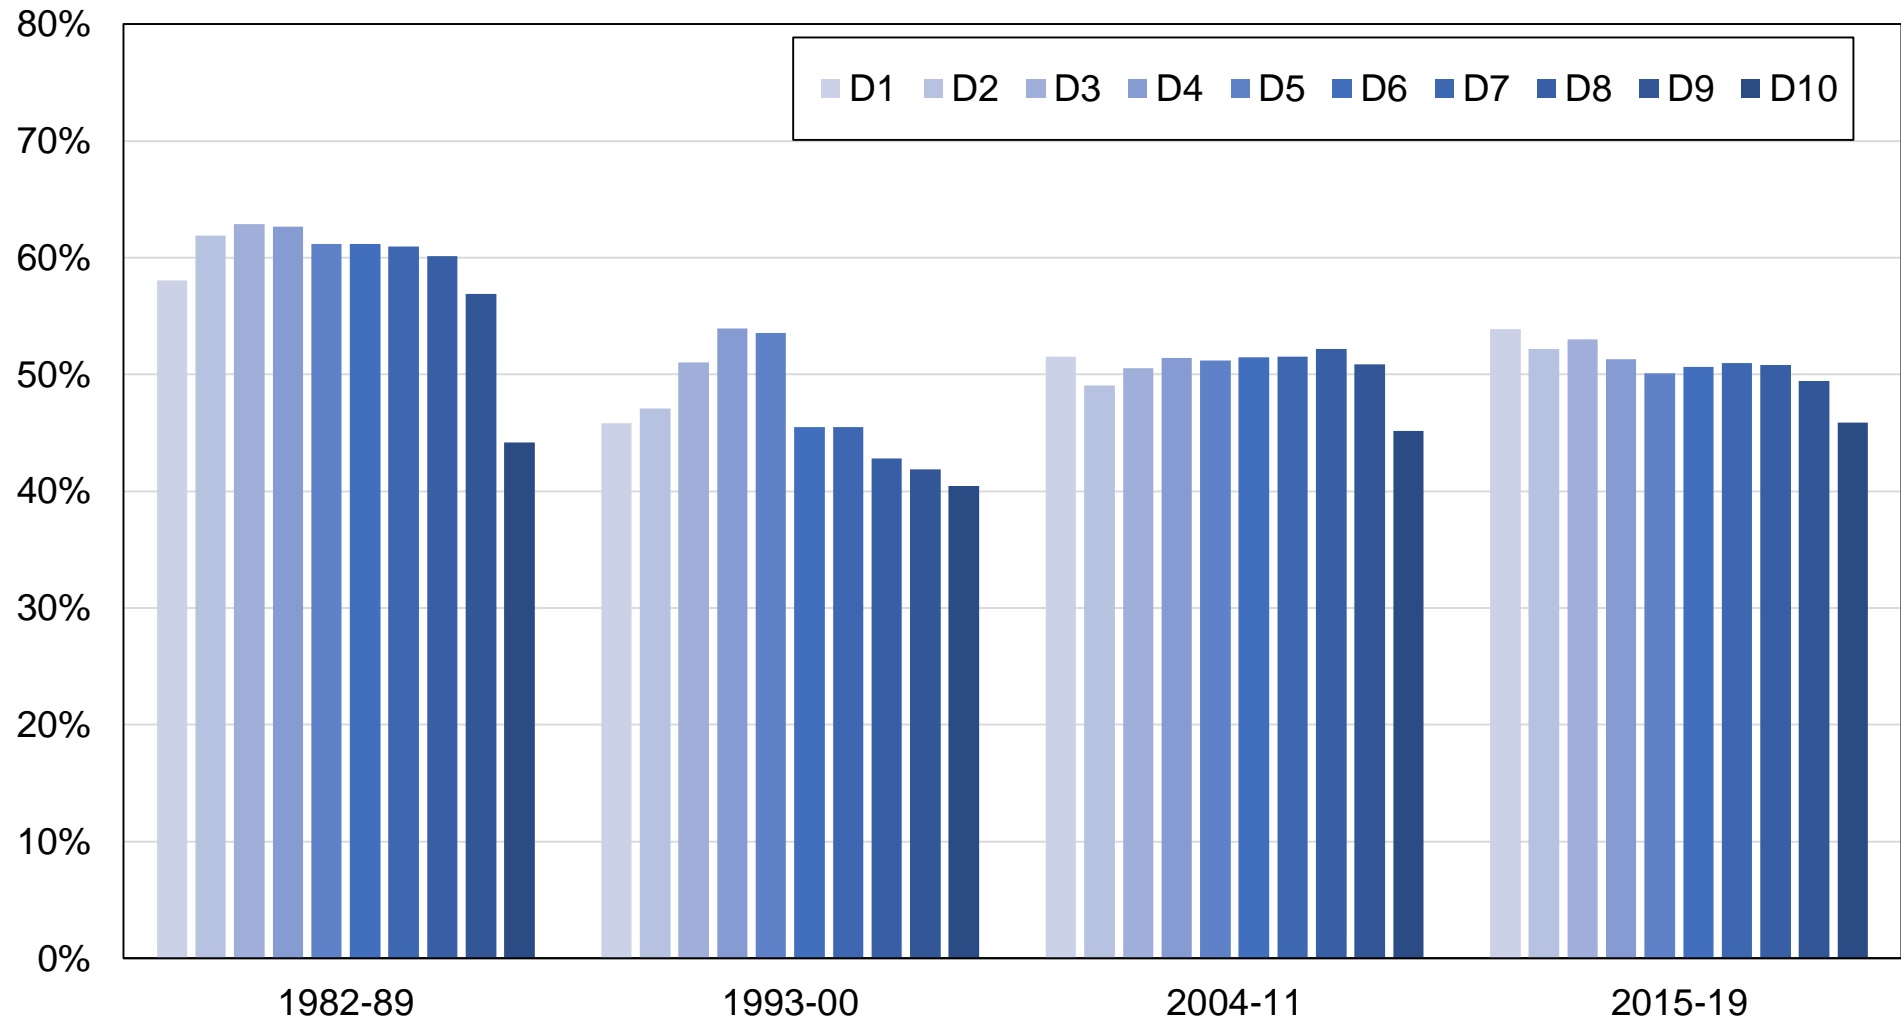

Figure BA6 - The composition of income quintiles by education level in Spain, 2010s

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the composition of income quintiles by education level in the 2010s.

Figure BB1 - Vote for the left by income decile in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by income decile. In the 1993-2000 decade, income is only available in 2000.

Figure BB2 - Vote for the left by income decile in Spain (yearly)

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by income decile.

Figure BB3 - Vote for the left by education level in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by education level.

Figure BB4 - Vote for the left by education level in Spain (yearly)

Source: authors' computations using Spanish post-electoral surveys 1979-2019 (general elections).

Note: the figure shows the share of votes received by left-wing parties by education level.

Figure BB5 - Vote for the left by income decile in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by income decile. In the 1993-2000 decade, income is only available in 2000.

Figure BB6 - Vote for the left by income decile in Spain (yearly)

Source: authors' computations using Spanish post-electoral surveys 1982-2019 (general elections).

Note: the figure shows the share of votes received by left-wing parties by income decile.

Figure BB7 - Vote for the left by religious affiliation in Spain

Source: authors' computations using Spanish post-electoral surveys 1979-2019 (general elections).

Note: the figure shows the share of votes received by left-wing parties by religious affiliation.

Figure BB8 - Vote for the left by church attendance in Spain

Source: authors' computations using Spanish post-electoral surveys 1982-2019 (general elections).

Note: the figure shows the share of votes received by left-wing parties by frequency of church attendance.

Figure BB9 - Vote for the left by age group in Spain

Source: authors' computations using Spanish post-electoral surveys 1979-2019 (general elections).

Note: the figure shows the share of votes received by left-wing parties by age group.

Figure BB10 - Vote for the left by gender in Spain

Source: authors' computations using Spanish post-electoral surveys 1979-2019 (general elections).

Note: the figure shows the share of votes received by left-wing parties by gender.

Figure BB11 - Vote for the left by location in Spain

Source: authors' computations using Spanish post-electoral surveys 1979-2019 (general elections).

Note: the figure shows the share of votes received by left-wing parties by rural-urban location.

Figure BB12 - Vote for the left by employment type in Spain

Source: authors' computations using Spanish post-electoral surveys 1979-2019 (general elections).

Note: the figure shows the share of votes received by left-wing parties by employment type.

Figure BB13 - Vote for the left by union membership in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by union membership status.

Figure BB14 - Vote for the left by sector of occupation in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by sector of occupation.

Figure BB15 - Vote for the left by marital status in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by marital status.

Figure BB16 - Vote for the left by subjective social class in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by subjective social class.

Figure BB17 - Vote for the left among highest-educated and top-income voters in Spain, before controls

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the support for left-wing parties among highest-educated and top-income voters.

Figure BB18 - Vote for the left among highest-educated and top-income voters in Spain, after controls

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the support for left-wing parties among highest-educated and top-income voters, after controlling for age, gender, employment and marital status, religious affiliation, region, religiosity, self-employment status, union membership, subjective social class, rural-urban location and sector.

Figure BB19 - Vote for the left among university graduates in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of university graduates and the share of other voters voting for left-wing parties, before and after controlling for other variables.

Figure BB20 - Vote for the left among highest-educated voters in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of top 10% educated voters and the share of other voters voting for left-wing parties, before and after controlling for other variables.

Figure BB21 - Vote for the left among primary-educated voters in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of primary-educated voters and the share of other voters voting for left-wing parties, before and after controlling for other variables.

Figure BB22 - Vote for the left among top-income voters in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of top 10% earners and the share of other voters voting for left-wing parties, before and after controlling for other variables.

Figure BB23 - Vote for the left among low-income voters in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of top 10% earners and the share of other voters voting for left-wing parties, before and after controlling for other variables.

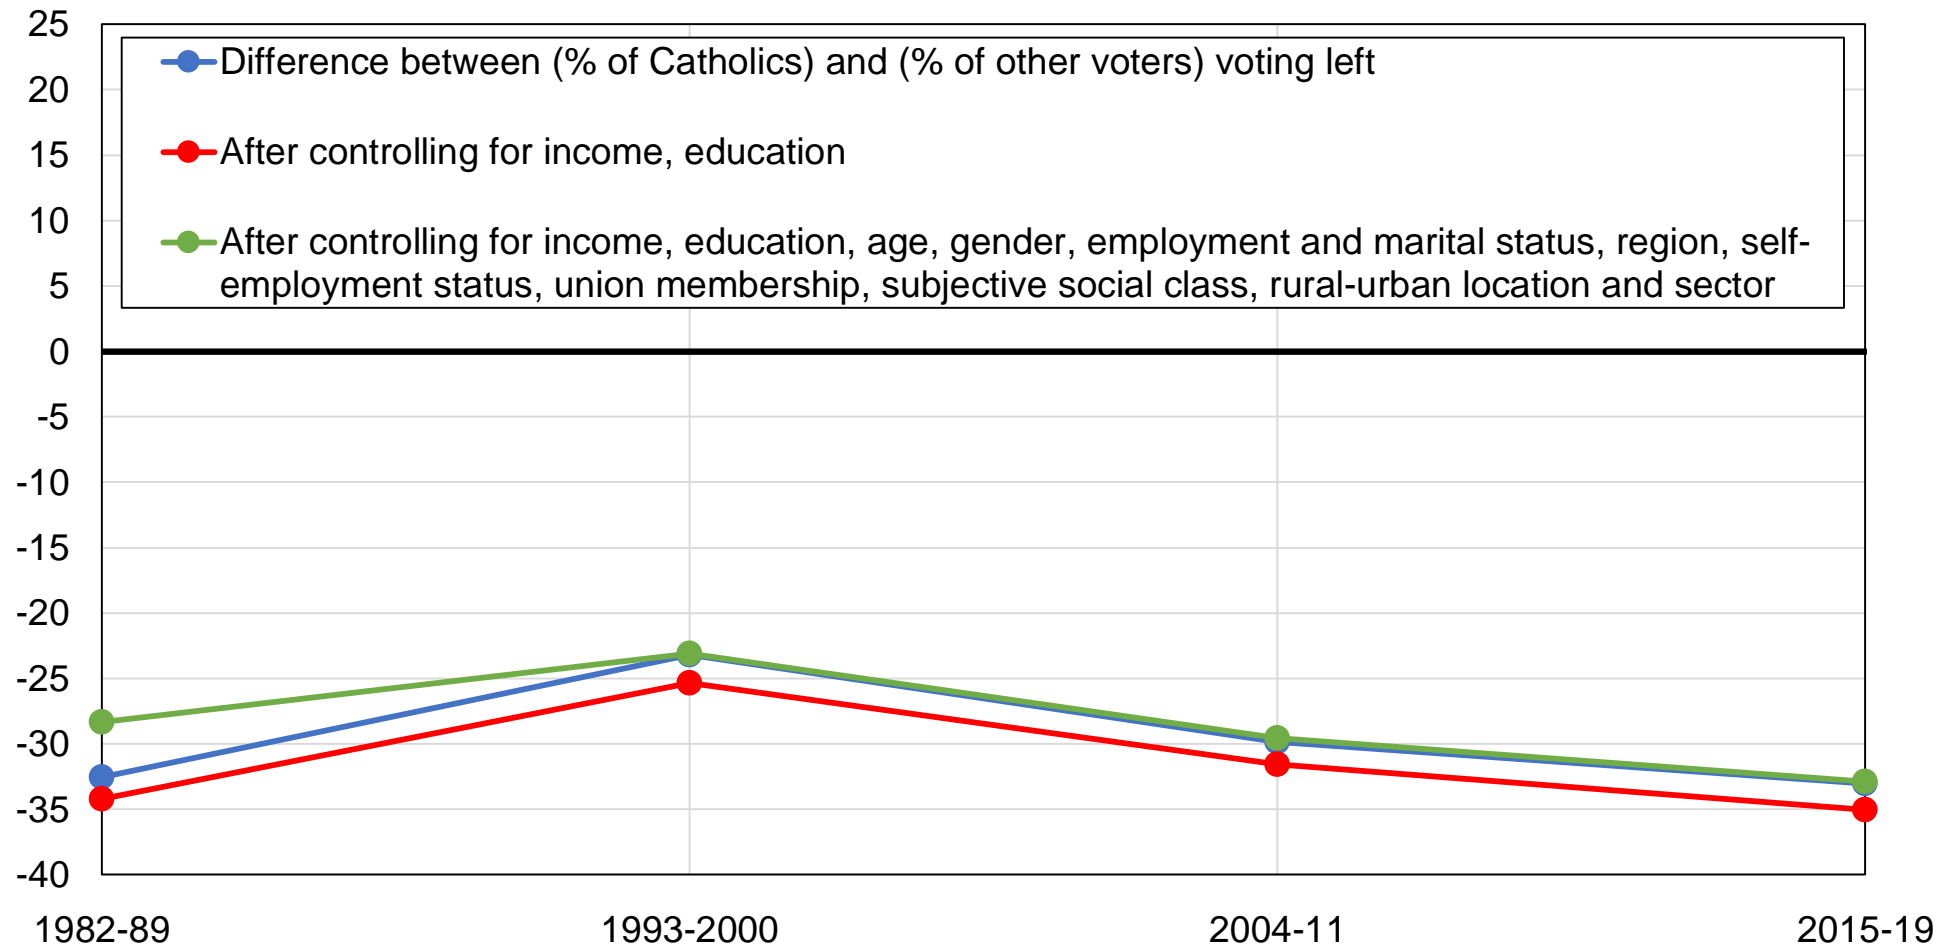

Figure BB24 - Vote for the left among voters with no religion in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of voters declaring no religion and the share of other voters voting for left-wing parties, before and after controlling for other variables.

Figure BB25 - Vote for the left among Catholics in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of Catholic voters and the share of other voters voting for left-wing parties, before and after controlling for other variables.

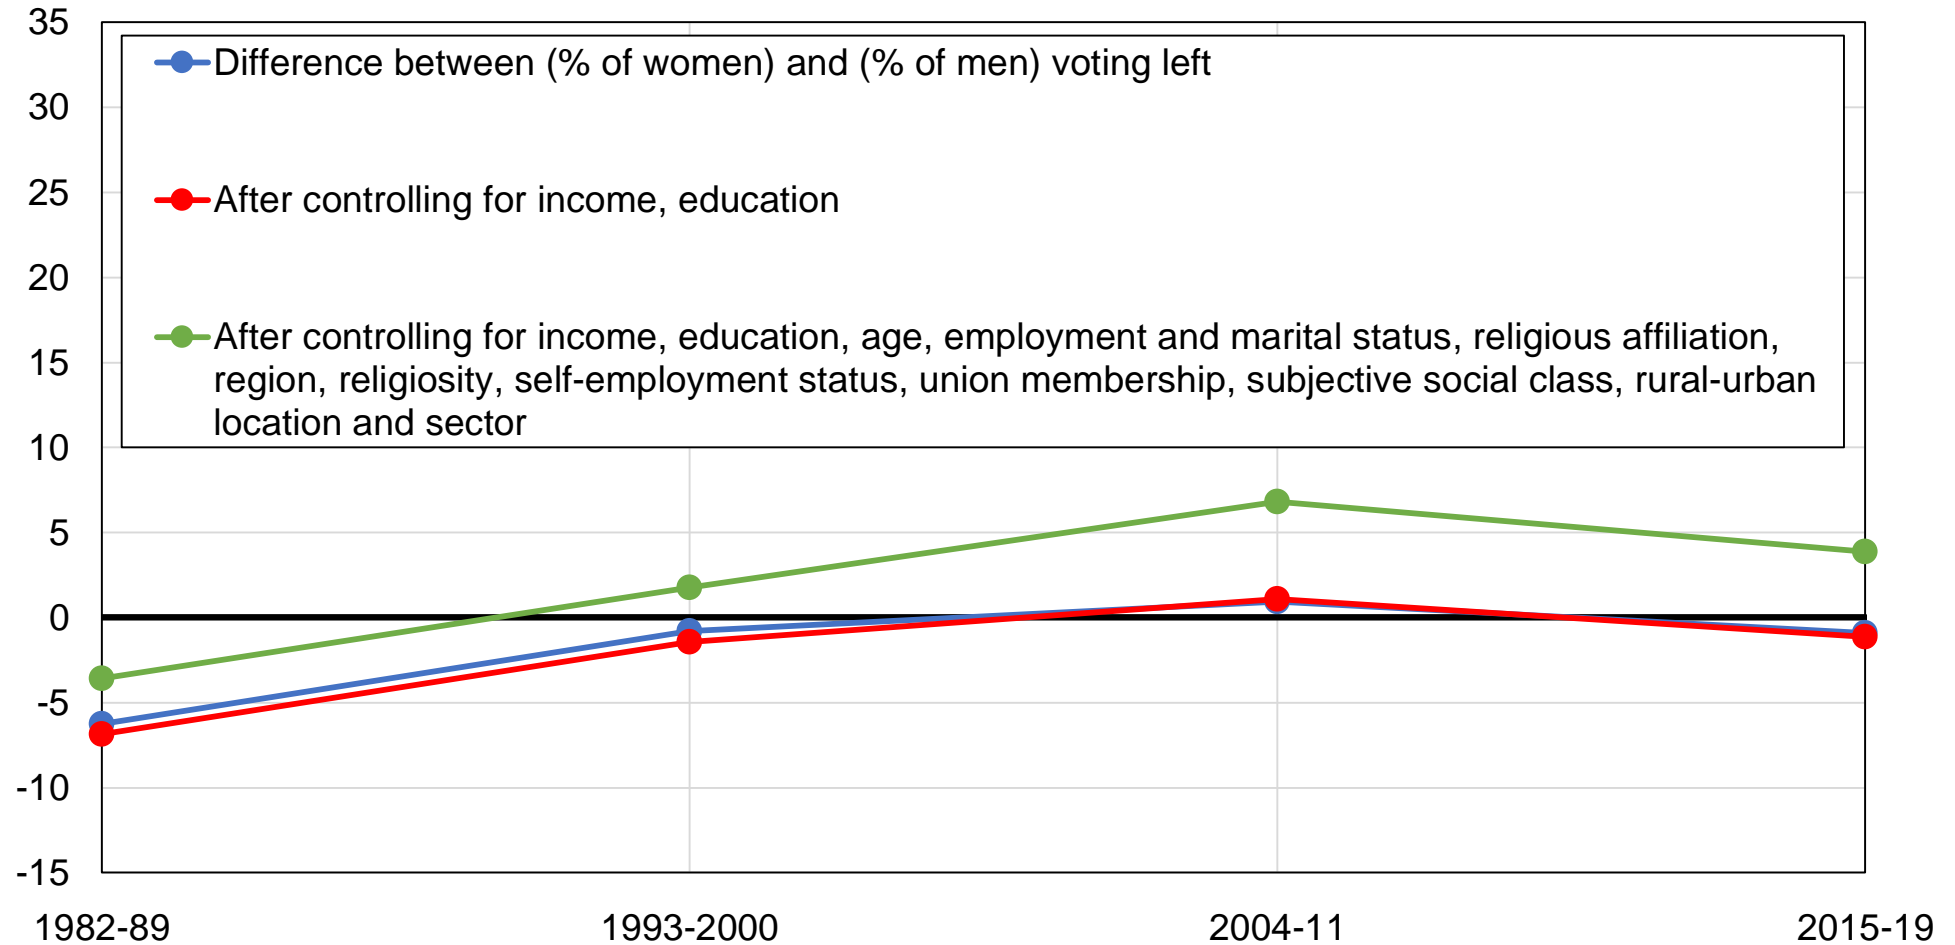

Figure BB26 - Vote for the left among non-religious voters in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of voters never going to church and the share of other voters voting for left-wing parties, before and after controlling for other variables.

Figure BB27 - Vote for the left among women in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of women and the share of men voting for left-wing parties, before and after controlling for other variables.

Figure BB28 - Vote for the left among union members in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of union members and the share of other voters voting for left-wing parties, before and after controlling for other variables.

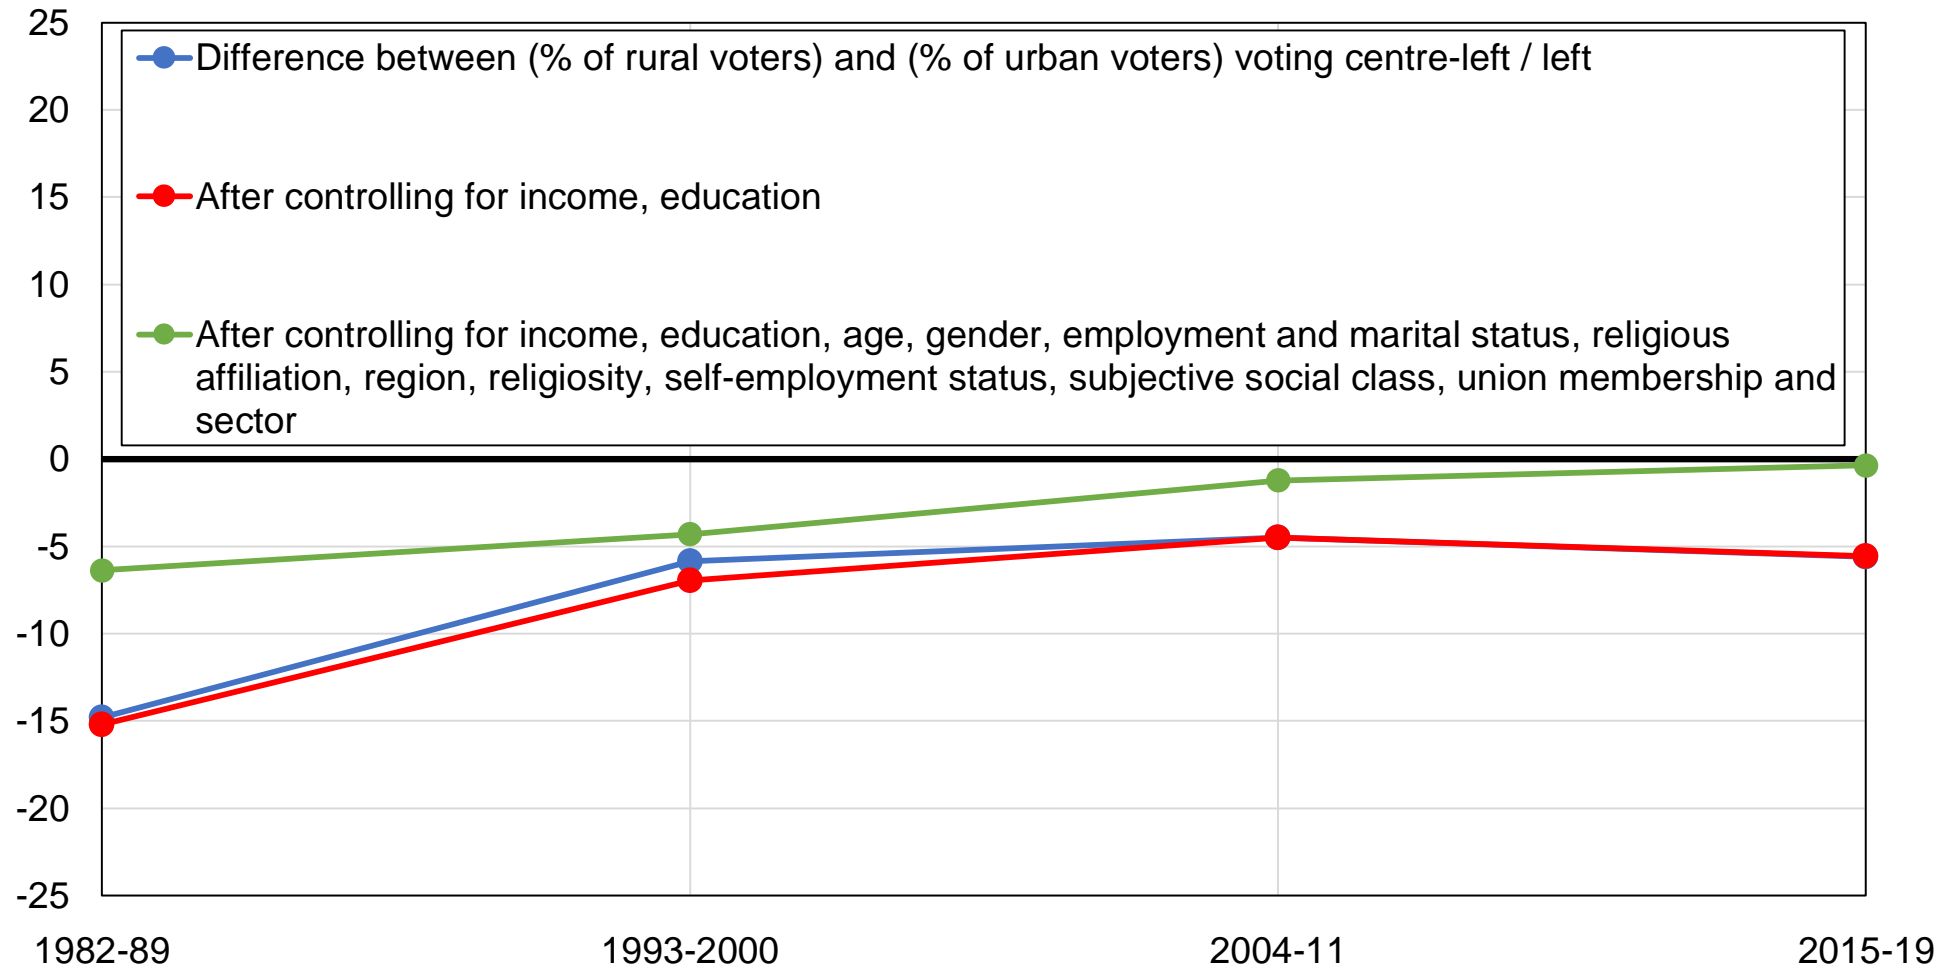

Figure BB29 - Vote for the left among young voters in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of voters aged 20-39 and the share of voters older than 40 voting for left-wing parties, before and after controlling for other variables.

Figure BB30 - Vote for the left among rural areas in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of voters in rural areas and the share of voters in urban areas voting for left-wing parties, before and after controlling for other variables.

Figure BB31 - Vote for the left among the working class in Spain

Source: authors' computations using Spanish political attitudes surveys.

Note: the figure shows the difference between the share of voters perceiving themselves as "working class" and the share of other voters perceiving themselves as "middle class" or "no class" voting for left-wing parties, before and after controlling for other variables.

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by income decile.

**Figure CB5 - Vote for Socialists / Communists / Greens / Left block
by income group in Portugal**

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by income group.

Figure CB6 - Vote for Socialists / Communists / Greens / Left block by religious affiliation in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by religious affiliation.

Figure CB7 - Vote for Socialists / Communists / Greens / Left block by church attendance in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by frequency of church attendance.

Figure CB8 - Vote for Socialists / Communists / Greens / Left block by employment status in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by employment status.

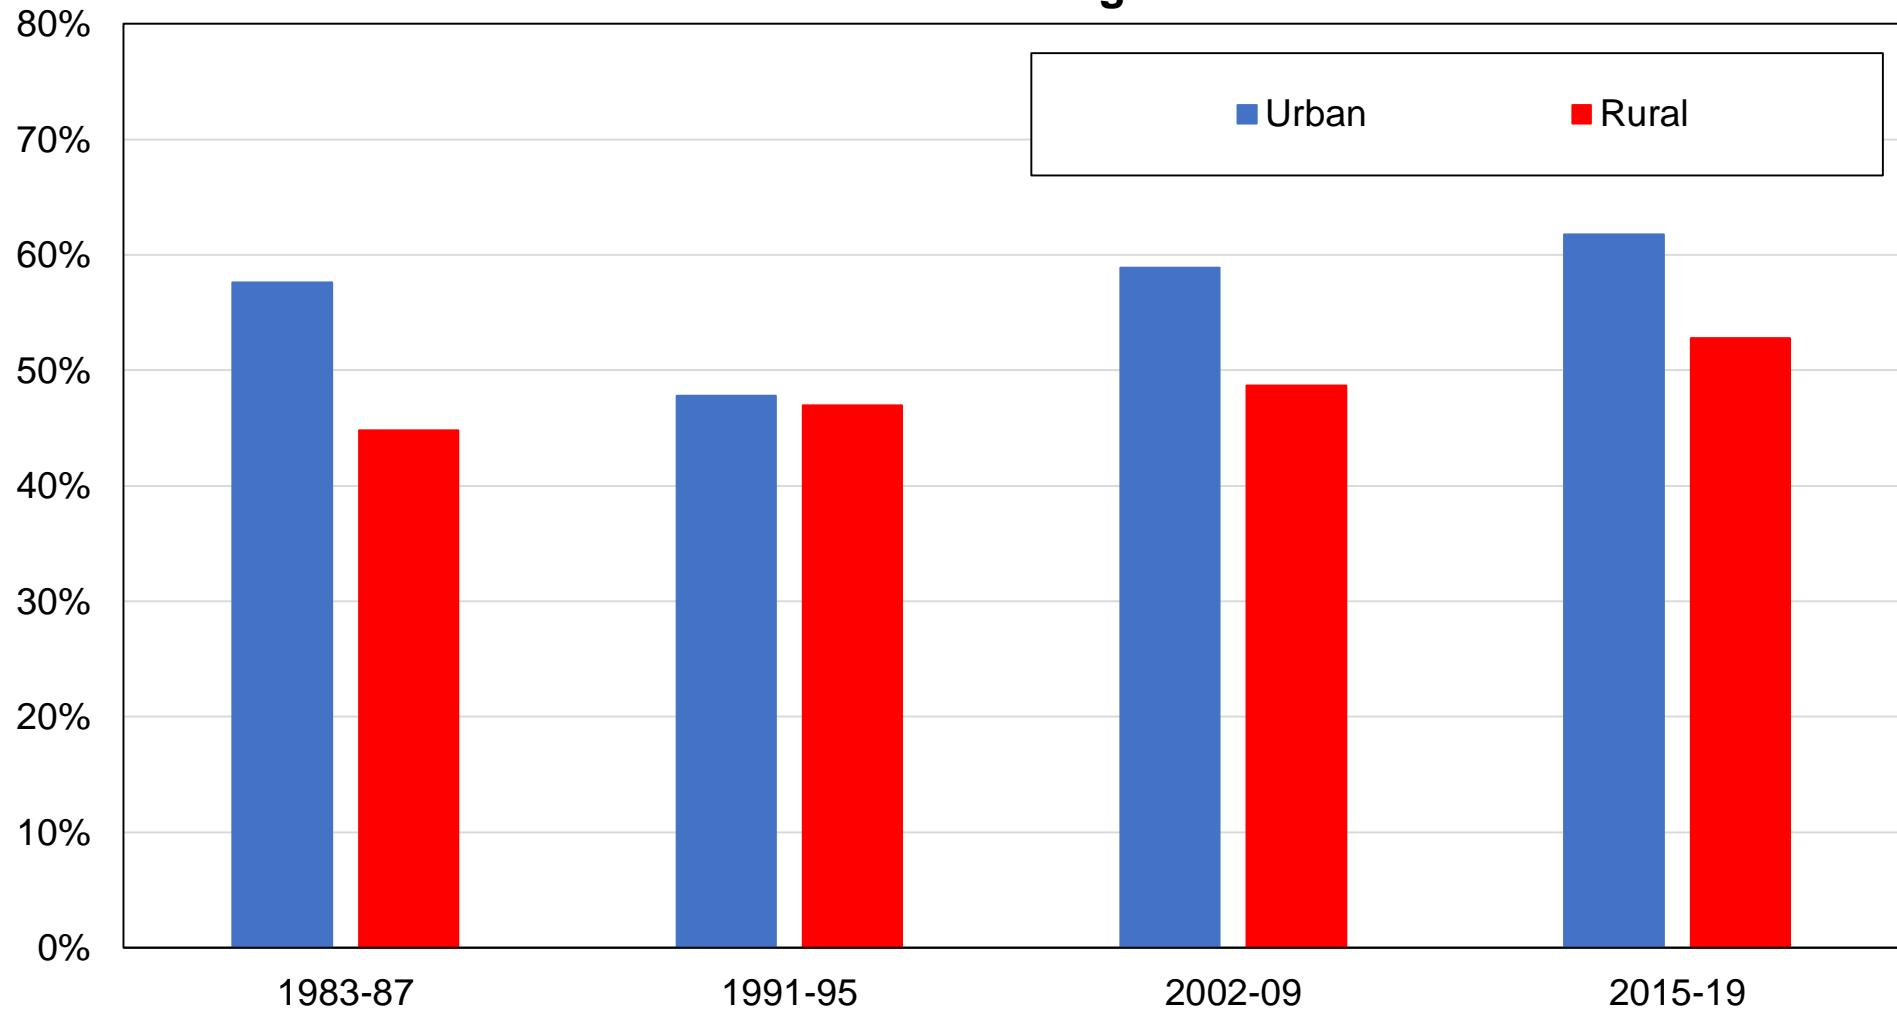

Figure CB9 - Vote for Socialists / Communists / Greens / Left block by region in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by region.

Figure CB10 - Vote for Socialists / Communists / Greens / Left block by location in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by urban versus rural location.

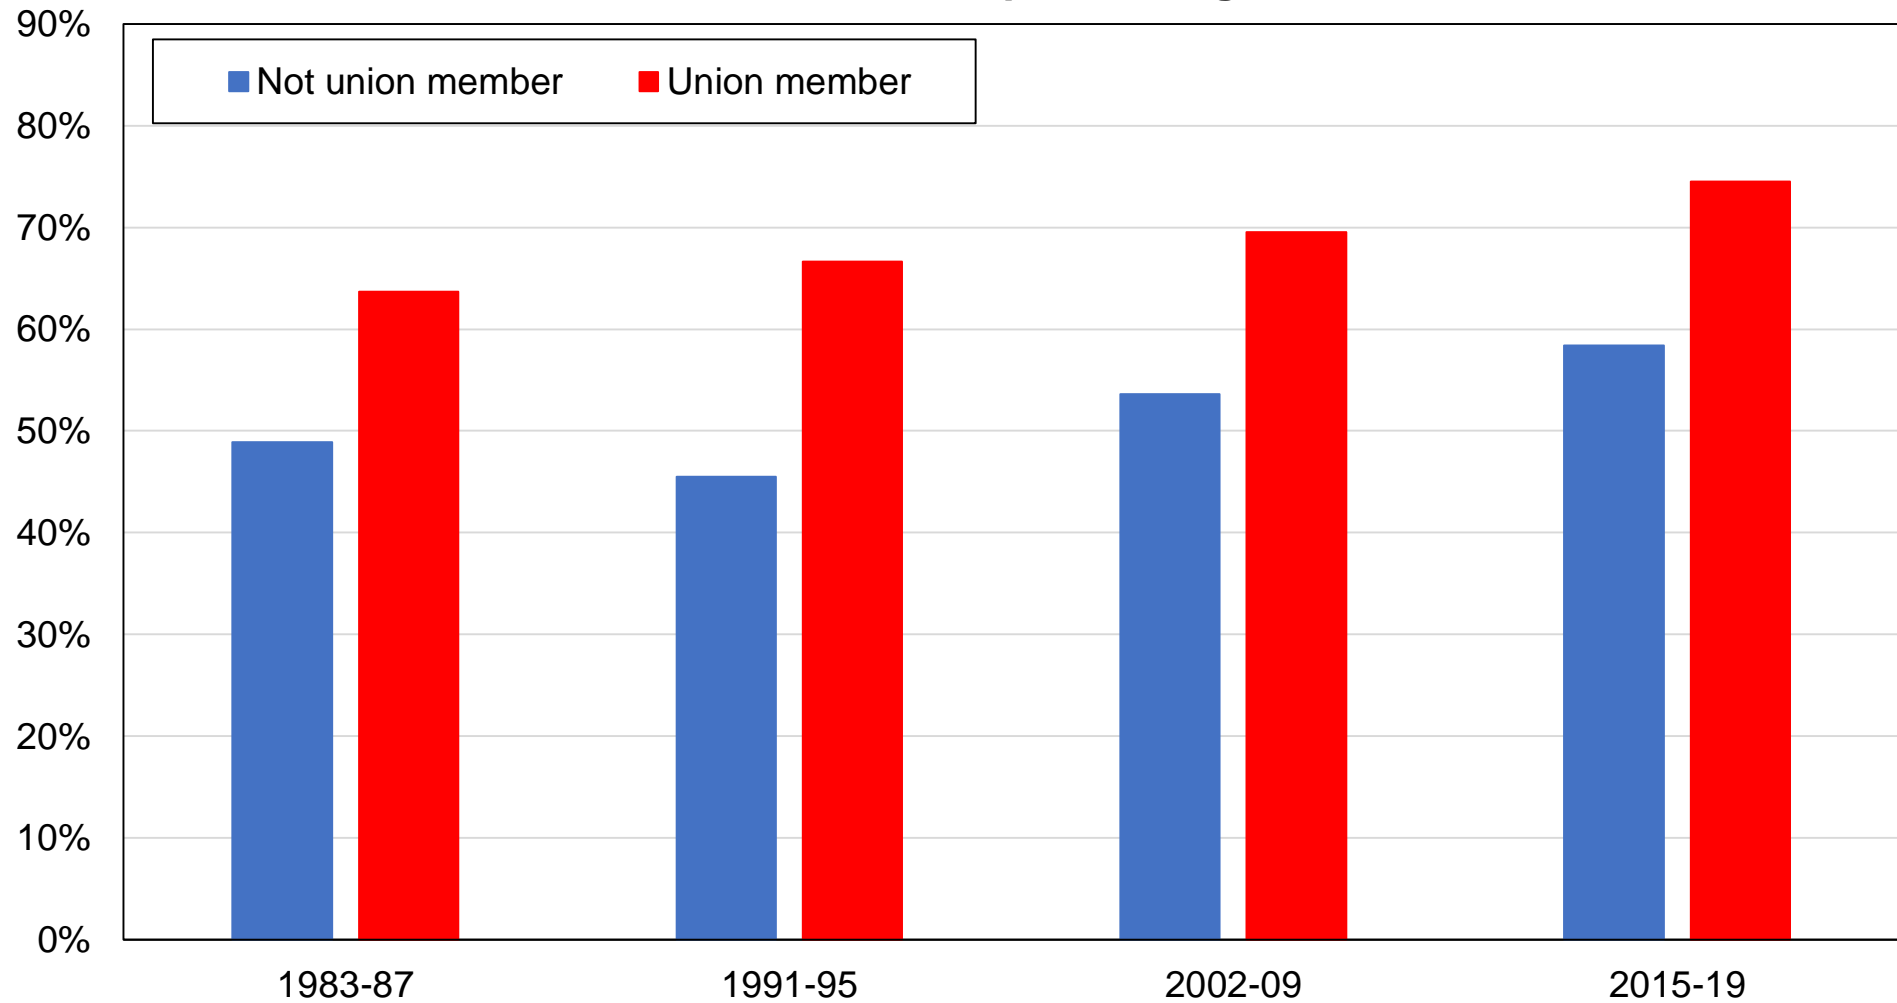

Figure CB11 - Vote for Socialists / Communists / Greens / Left block by gender in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by gender.

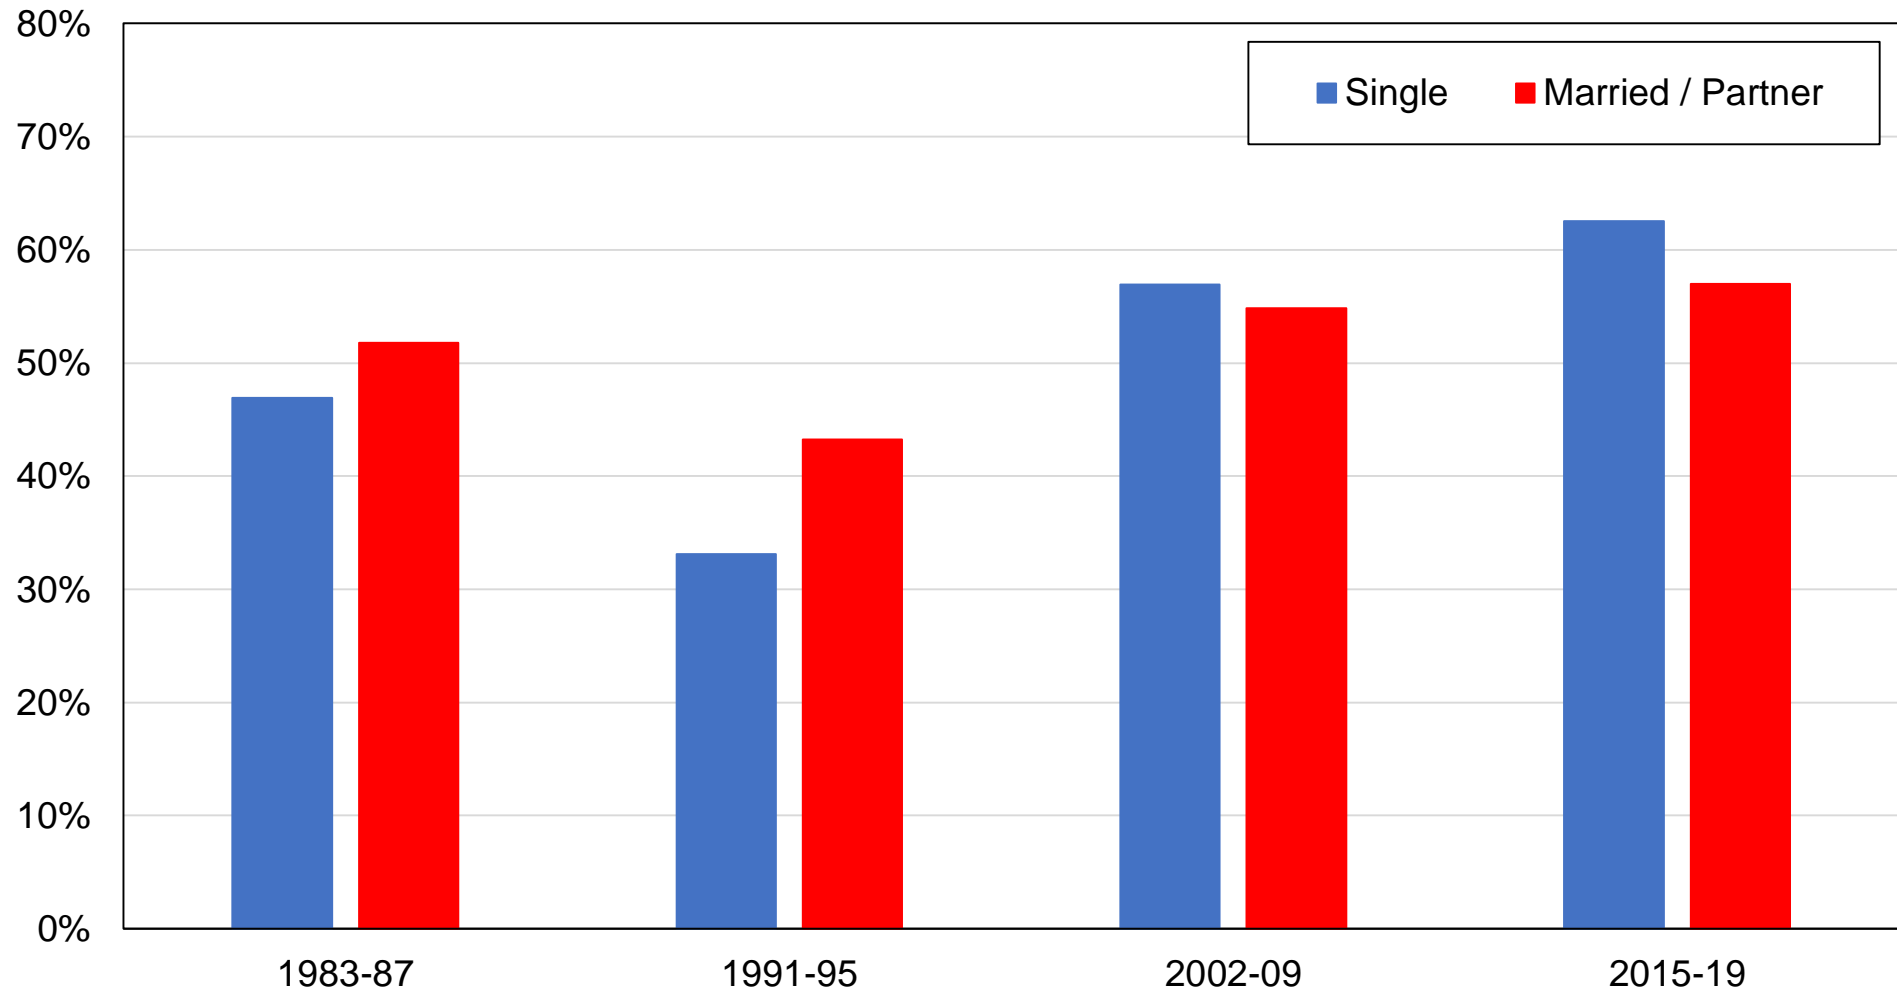

Figure CB12 - Vote for Socialists / Communists / Greens / Left block by union membership in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by union membership status.

Figure CB13 - Vote for Socialists / Communists / Greens / Left block by marital status in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by marital status.

Figure CB14 - Vote for Socialists / Communists / Greens / Left block by social class in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by social class. Working class includes "lower class". Middle class includes "no class" and "upper class".

Figure CB15 - Vote for Socialists / Communists / Greens / Left block by age group in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by age.

Figure CB16 - Vote for Socialists / Communists / Greens / Left block by country of birth in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by left-wing parties by country of birth.

Figure CB17 - Vote for Socialists / Communists / Greens / Left bloc among highest-educated and top-income voters in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of top 10% educated and top income voters and the share of other voters voting for Socialists / Communists / Greens / Left bloc, before controlling for other variables.

Figure CB18 - Vote for Socialists / Communists / Greens / Left bloc among tertiary-educated voters in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of tertiary-educated and the share of other voters voting for Socialists / Communists / Greens / Left bloc, before and after controlling for other variables.

Figure CB19 - Vote for Socialists / Communists / Greens / Left bloc among highest-educated voters in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of top 10% educated voters and the share of other voters voting for Socialists / Communists / Greens / Left bloc, before and after controlling for other variables.

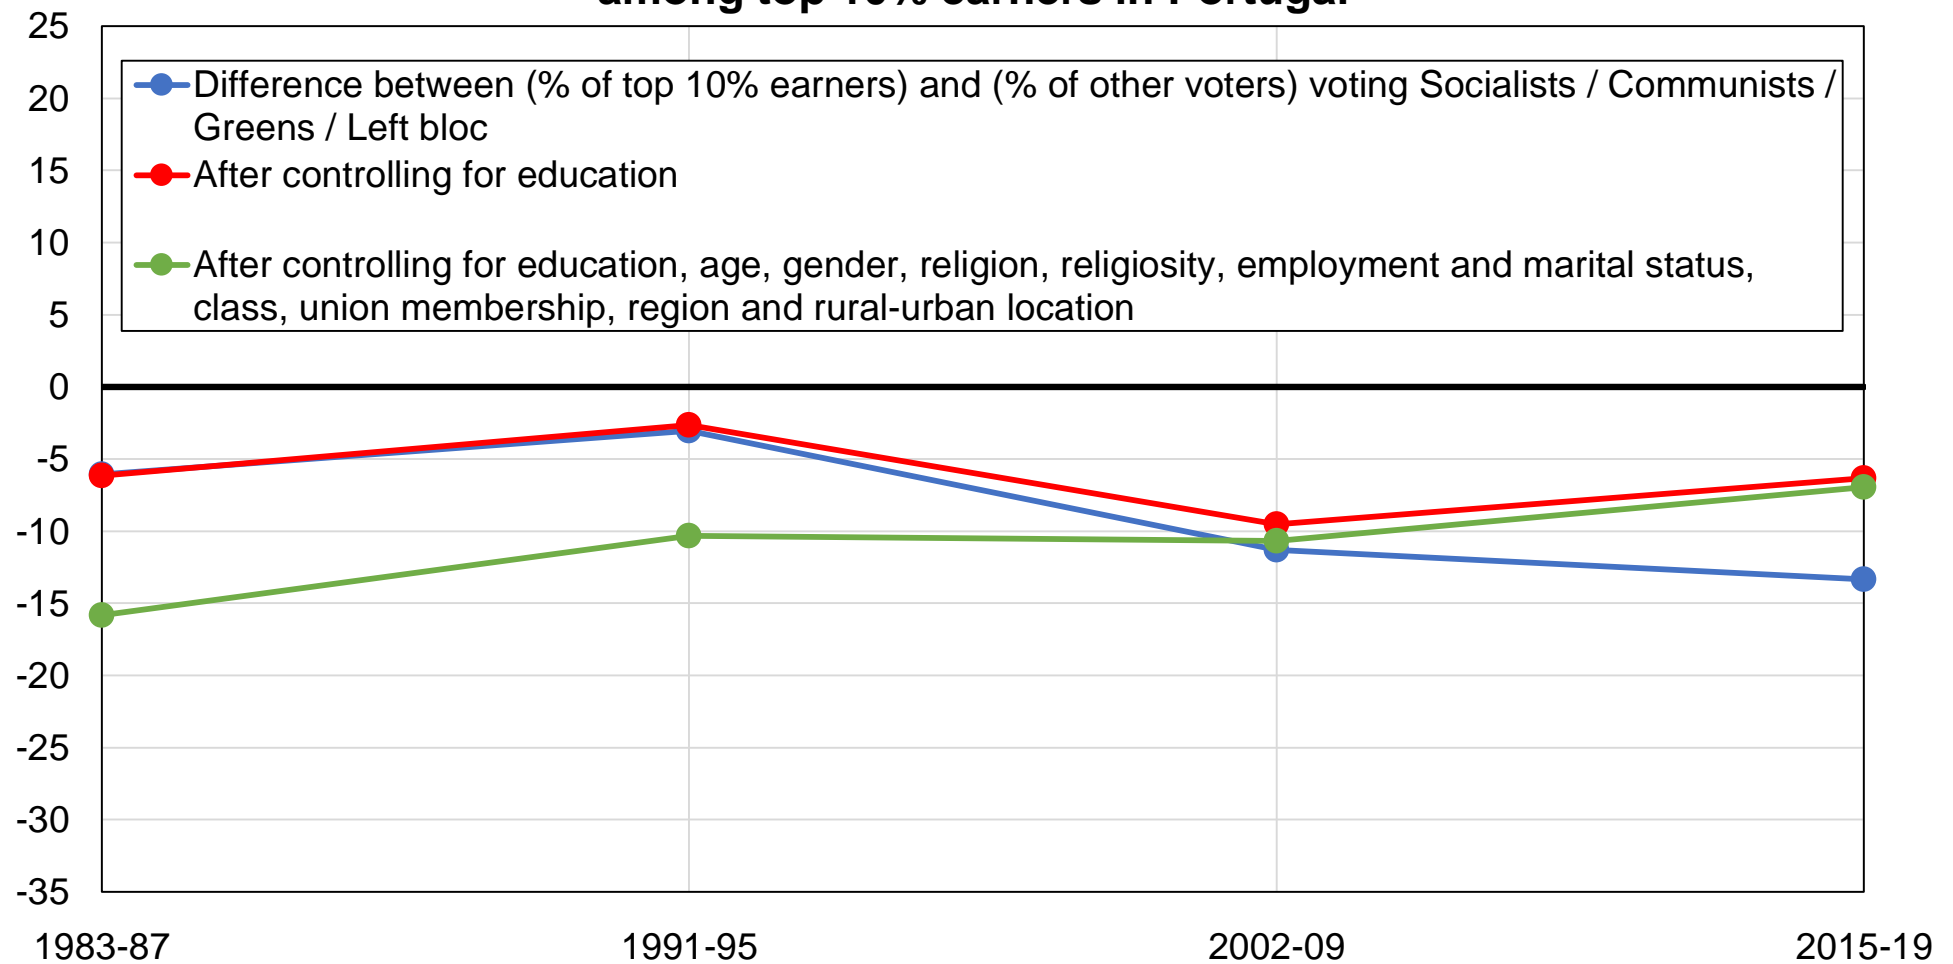

Figure CB20 - Vote for Socialists / Communists / Greens / Left bloc among primary-educated voters in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of primary educated voters and the share of other voters voting for Socialists / Communists / Greens / Left bloc, before and after controlling for other variables.

Figure CB21 - Vote for Socialists / Communists / Greens / Left block among top 10% earners in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of top 10% earners and the share of other voters voting for Socialists / Communists / Greens / Left bloc, before and after controlling for other variables.

Figure CB22 - Vote for Socialists / Communists / Greens / Left block among Catholics and non-religious in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of voters declaring no religion and the share of other voters voting for Socialists / Communists / Greens / Left bloc, as well as the same difference between Catholics and others voters.

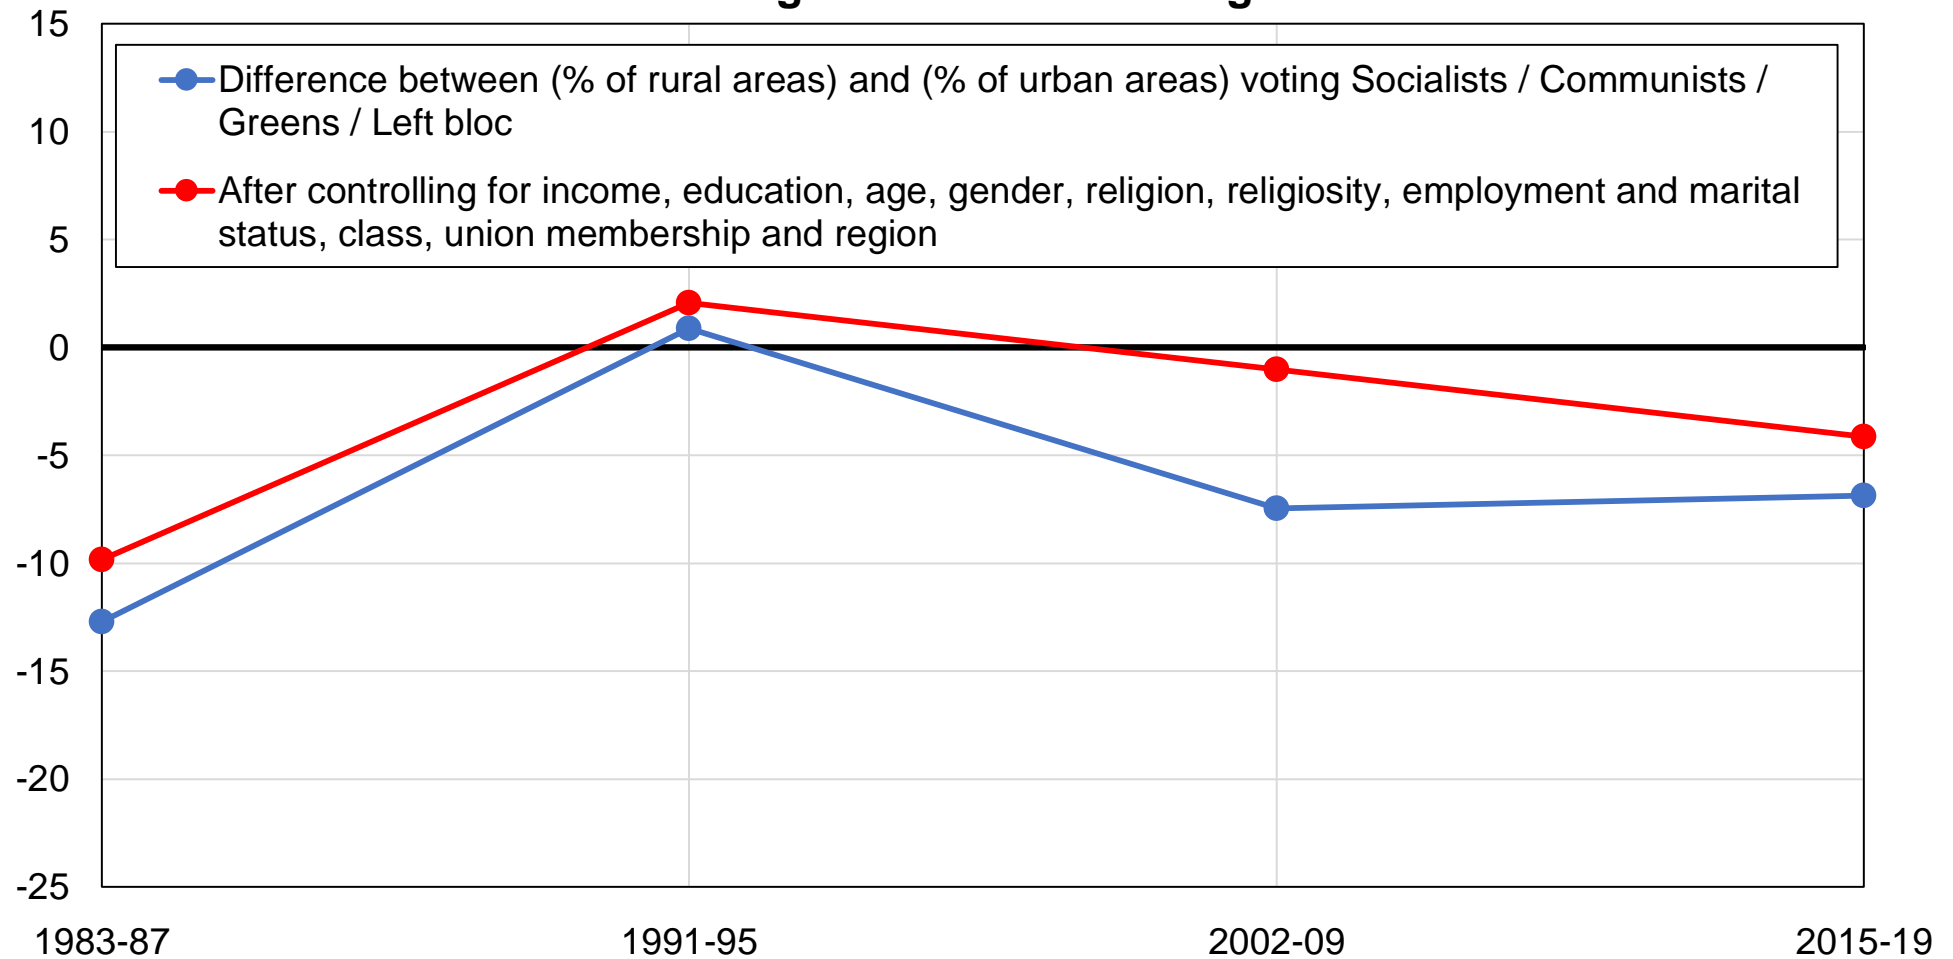

Figure CB23 - Vote for Socialists / Communists / Greens / Left block among the non-religious in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of voters never going to church and the share of other voters voting for Socialists / Communists / Greens / Left bloc, before and after controlling for other variables.

Figure CB24 - Vote for Socialists / Communists / Greens / Left block among rural areas in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of rural areas and the share of urban areas voting for Socialists / Communists / Greens / Left bloc, before and after controlling for other variables.

Figure CB25 - Vote for Socialists / Communists / Greens / Left block among women in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of women and the share of men voting for Socialists / Communists / Greens / Left bloc, before and after controlling for other variables.

Figure CB26 - Vote for Socialists / Communists / Greens / Left block among union members in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of union members and the share of other voters voting for Socialists / Communists / Greens / Left bloc, before and after controlling for other variables.

Figure CB27 - Vote for Socialists / Communists / Greens / Left block among young voters in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the difference between the share of voters aged 20-39 and the share of voters older than 40 voting for Socialists / Communists / Greens / Left bloc, before and after controlling for other variables.

Figure CC1 - Vote for the Socialist Party by education level in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by the Socialist Party by education level.

Figure CC2 - Vote for the Socialist Party by education group in Portugal

Source: authors' computations using Portuguese political attitudes surveys.

Note: the figure shows the share of votes received by the Socialist Party by education group.

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by education group.

Figure DB4 - Vote for Fianna Fáil / Sinn Féin / Labour / Other Left by education group (decomposed)

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by each party by education group across decades.

Figure DB5 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by income decile

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by income decile.

Figure DB6 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by income decile

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by income decile.

Figure DB7 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by income group

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by income group.

Figure DB8 - Vote for Fianna Fáil / Sinn Féin / Labour / Other Left by income group (decomposed)

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by income group.

Figure DB9 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by religious affiliation

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by religious affiliation.

Figure DB10 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by church attendance

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by frequency of church attendance.

Figure DB11 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by location

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by rural-urban location.

Figure DB12 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by gender

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by gender.

Figure DB13 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by union membership

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by union membership status.

Figure DB14 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by marital status

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by marital status.

Figure DB15 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by perceived social class

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by self-perceived social class. Working class includes "lower class". Middle class includes "no class" and "upper class".

Figure DB16 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left by age group

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil and left-wing parties by age group.

Figure DC1 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among highest-educated and top-income voters

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the support for Fianna Fáil and left-wing parties among highest-educated and top-income voters.

Figure DC2 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among highest-educated and top-income voters

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the support for Fianna Fáil and left-wing parties among highest-educated and top-income voters, after controlling for income, education, age, gender, employment, marital status, religious affiliation and church attendance.

Figure DC3 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among university graduates

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the difference between the share of university graduates and the share of other voters voting for Fianna Fáil and left-wing parties, before and after controlling for other variables.

Figure DC4 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among highest-educated voters

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the difference between the share of top 10% educated voters and the share of other voters voting for Fianna Fáil and left-wing parties, before and after controlling for other variables.

Figure DC5 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among primary-educated voters

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the difference between the share of primary educated voters and the share of other voters voting for Fianna Fáil and left-wing parties, before and after controlling for other variables.

Figure DC6 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among top-income voters

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the difference between the share of top 10% earners and the share of other voters voting for Fianna Fáil and left-wing parties, before and after controlling for other variables.

Figure DC7 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among voters with no religion

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the difference between the share of voters declaring no religion and the share of other voters voting for Fianna Fáil and left-wing parties, before and after controlling for other variables.

Figure DC8 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among Catholics

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the difference between the share of voters declaring no religion and the share of other voters voting for Fianna Fáil and left-wing parties, before and after controlling for other variables.

Figure DC9 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among non-religious voters

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the difference between the share of voters never going to church and the share of other voters voting for Fianna Fáil and left-wing parties, before and after controlling for other variables.

Figure DC10 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among women

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the difference between the share of women and the share of men voting for Fianna Fáil and left-wing parties, before and after controlling for other variables.

Figure DC11 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among union members

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the difference between the share of union members and the share of other voters voting for Fianna Fáil and left-wing parties, before and after controlling for other variables.

Figure DC12 - Vote for Fianna Fáil / Sinn Féin / Labour / Other left among young voters

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the difference between the share of voters aged 20-39 and the share of voters older than 40 voting for Fianna Fáil and left-wing parties, before and after controlling for other variables.

Figure DC13 - The religious cleavage in Ireland

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the bias of voters with various religious affiliations towards Sinn Féin, Labour, Fine Gael and Fianna Fáil.

Figure DC14 - The education cleavage in Ireland (education groups)

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the bias of highest-educated voters towards Sinn Féin, Labour, Fine Gael and Fianna Fáil.

Figure DC15 - Vote for Sinn Féin / Labour / Other left among highest-educated and top-income voters

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the support for left-wing parties among highest-educated and top-income voters, after controlling for income, education, age, gender, employment, marital status, religious affiliation and church attendance.

Figure DD1 - Vote for Fianna Fáil by education level

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil by education level.

Figure DD2 - Vote for Fianna Fáil by education group

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil by education group.

Figure DD3 - Vote for Fianna Fáil by income group

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil by income group.

Figure DD4 - Vote for Fianna Fáil by religious affiliation

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil by religious affiliation.

Figure DD5 - Vote for Fianna Fáil by gender

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil by gender.

Figure DD6 - Vote for Fianna Fáil by age

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil by age group.

Figure DD7 - Vote for Fianna Fáil by union membership

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil by union membership status.

Figure DD8 - Vote for Fianna Fáil by perceived social class

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil by self-perceived social class. Working class includes "lower class".

Figure DD9 - Vote for Fianna Fáil by location

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fianna Fáil by rural-urban location.

Figure DD10 - Vote for Fine Gael by education level

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fine Gael by education level.

Figure DD12 - Vote for Fine Gael by education group

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fine Gael by education group.

Figure DD12 - Vote for Fine Gael by income group

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fine Gael by income group.

Figure DD13 - Vote for Fine Gael by religious affiliation

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fine Gael by religious affiliation.

Figure DD14 - Vote for Fine Gael by gender

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fine Gael by gender.

Figure DD15 - Vote for Fine Gael by age

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fine Gael by age group.

Figure DD16 - Vote for Fine Gael by union membership

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Fine Gael by union membership status.

Figure DD17 - Vote for Fine Gael by perceived social class

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Fine Gael by self-perceived social class. Working class includes "lower class".

Figure DD18 - Vote for Fine Gael by location

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Fine Gael by rural-urban location.

Figure DD19 - Vote for the Labour Party by education level

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Labour Party by education level.

Figure DD20 - Vote for the Labour Party by education group

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Labour Party by education group.

Figure DD21 - Vote for the Labour Party by income group

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Labour Party by income group.

Figure DD22 - Vote for the Labour Party by religious affiliation

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Labour Party by religious affiliation.

Figure DD23 - Vote for the Labour Party by gender

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Labour Party by gender.

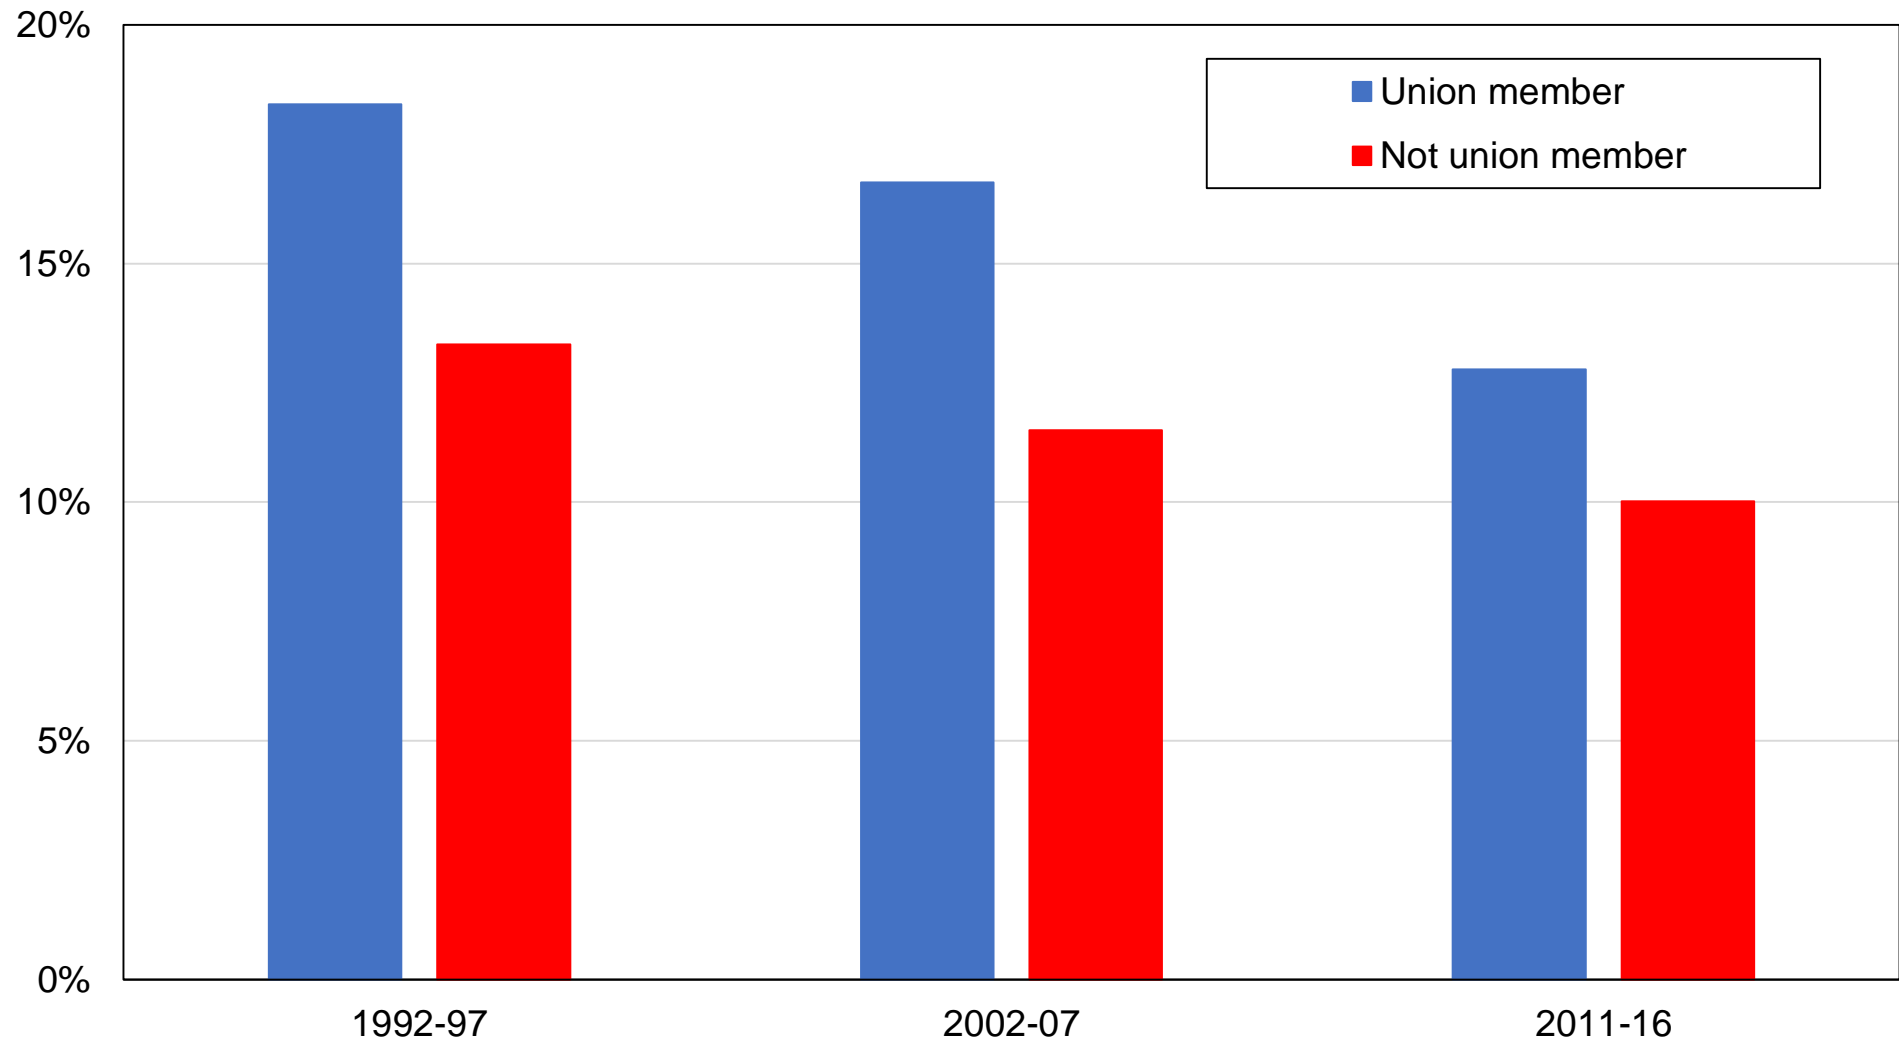

Figure DD24 - Vote for the Labour Party by age

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Labour Party by age group.

Figure DD25 - Vote for the Labour Party by union membership

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Labour Party by union membership status.

Figure DD26 - Vote for the Labour Party by perceived social class

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Labour Party by self-perceived social class. Working class includes "lower class".

Figure DD27 - Vote for the Labour Party by location

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Labour Party by rural-urban location.

Figure DD28 - Vote for Sinn Féin by education level

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Sinn Féin by education level.

Figure DD29 - Vote for Sinn Féin by education group

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Sinn Féin by education group.

Figure DD30 - Vote for Sinn Féin by income group

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Sinn Féin by income group.

Figure DD31 - Vote for Sinn Féin by religious affiliation

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by the Sinn Féin by religious affiliation.

Figure DD32 - Vote for Sinn Féin by gender

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Sinn Féin by gender.

Figure DD33 - Vote for Sinn Féin by age

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Sinn Féin by age group.

Figure DD34 - Vote for Sinn Féin by union membership

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the share of votes received by Sinn Féin by union membership status.

Figure DD35 - Growth Incidence Curves in Ireland, 1980-2019

Source: author's computations using data from the World Inequality Database (<https://wid.world/>).

Note: income is after taxes and transfers.

Figure DD36 - The education cleavage in Ireland

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the bias of university graduates towards Sinn Féin, Labour, Fine Gael, and Fianna Fáil.

Figure DD37 - The income cleavage in Ireland

Source: authors' computations using Irish political attitudes surveys.

Note: the figure shows the bias of top-income voters towards Sinn Féin, Labour, Fine Gael and Fianna Fáil.

Table DA1 - Survey data sources

Year	Survey	Source	Sample size
1973	Eurobarometers Mannheim Trend File, various years	Gesis	4199
1977	Eurobarometers Mannheim Trend File, various years	Gesis	7009
1981	Eurobarometers Mannheim Trend File, various years	Gesis	6007
1982	Eurobarometers Mannheim Trend File, various years	Gesis	5987
1987	Eurobarometers Mannheim Trend File, various years	Gesis	8032
1989	Eurobarometers Mannheim Trend File, various years	Gesis	7005
1992	Eurobarometers Mannheim Trend File, various years	Gesis	13156
1997	Eurobarometers Mannheim Trend File, various years	Gesis	19054
2002	European Social Survey, 2002-2006	ESS	6132
2007	European Social Survey, 2008-2010	ESS	4340
2011	European Social Survey, 2012-2014	ESS	5018
2016	European Social Survey, 2016-2018	ESS	4973
2020	UCD Online Election Poll	Harvard	1585
